INDIAN FOREST SERVICE.

REGULATIONS AS TO THE APPOINTMENT OF PROBATIONERS, 1914.

1. *Appointments.*—The Secretary of State for India in Council will, in the summer of 1914, make **not less than nine appointments** of Probationers for the Indian Forest Service, provided that so many candidates are considered to be in all respects qualified.

In making these appointments, he will act with the advice of a Selection Committee.

2. *Applications for Appointment.*—Applications for appointment must be made on a printed form to be obtained from the Secretary, Revenue Department, India Office, Whitehall, London, S.W., and to be returned to him not later than **Wednesday, the 1st July 1914.** Candidates must be prepared, if called upon, to attend at the India Office, at their own expense, for a personal interview with the Selection Committee within three weeks from that date.

3. *Age Limit.*—Candidates must be not less than 19 but under 22 years of age on the 1st January 1914.

Note.—For the year 1914 only, candidates who have taken an honours course (or other course specified in paragraph 5) which under the Regulations of the University, occupies four years, will be subject to the age limits which have hitherto been in force, viz., 19 and 23 on the 1st July of the year in which selection is made.

4. *Nationality, &c.*—Every candidate must be a natural-born subject of His Majesty. He must be prepared to give an undertaking, if selected, that he will not marry before he reaches India. If he does so, he will forfeit his appointment. He must be of good physique, and must produce evidence of character to satisfy the Secretary of State for India in Council that he is suited for the Indian Forest Service.

5. *Qualifications.*—Candidates must have obtained a degree *with Honours* in some branch of Natural Science* in a University of England, Wales, or Ireland, or have passed the Final Bachelor of Science Examination in Pure Science in one of the Universities of Scotland†. A degree in Applied Science will not be considered as fulfilling these conditions. Candidates will be required to produce evidence that they have a fair knowledge of either German or French.

NOTE.—Applications for appointment will be accepted from candidates who on the 1st July 1914 have already sat at an examination for a degree as mentioned above, but have not learned the result of the examination.

6. Should there be more candidates considered to be qualified in every respect than vacancies to be filled, the Secretary of State reserves the right to require them to pass a competitive examination conducted by the Civil Service Commissioners, on the results of which their final selection would depend. Particulars of this examination, which would be held in August, will be found in Appendix I.

* A Moderatorship in Natural Science or in Experimental Science at the University of Dublin will be considered as fulfilling these conditions.

† Graduates in Forestry at the University of Edinburgh are regarded as satisfying the requirements of this paragraph if they pass the Final Examination of that University in some one branch of Natural Science embraced in the degree in Pure Science.

7. *Medical Examination.*—Selected candidates will be required to undergo a strict examination by a Medical Board at the India Office, at which particular stress will be laid on good vision and hearing, and to satisfy the Secretary of State for India that they are physically fit for service in the Indian Forest Department (*see* Appendix VI).

Candidates who do not satisfy the Secretary of State for India that they are physically fit for appointment to the Indian Forest Service will not be admitted to the competitive examination mentioned in Regulation 6.

8. *Period of Probation.*—Before appointment to the Indian Forest Department, a probationer will be required—

(i) to have obtained, either before selection as probationer, or within the period of two years' probation, the degree or diploma in Forestry, at one of the Universities named in the margin;

Cambridge, Oxford or Edinburgh

(ii) to have undergone a special course of instruction in Forestry, under the direction and supervision of the Director of Indian Forest Studies appointed by the Secretary of State for India in Council, in such British and Continental localities as may be selected for the purpose;

(iii) to have passed an examination in certain special subjects, namely, Systematic Botany of Indian trees, Indian Geology, Forest Law, Indian Working Plans, and, if required, an Indian vernacular language;

(iv) to have undergone a final competitive examination in Forestry (*see* Appendix II);

(v) to have satisfied the Secretary of State, in such manner as may be determined, of his ability to ride.

The period of probation will in ordinary cases be two years. The Director of Indian Forest Studies will instruct probationers in each case as to the order and manner in which they should fulfil these various requirements.

9. *Charges.*—The probationers will be required to defray all expenses of lodging, board, tuition, and excursions, while at the University and on practical instruction in Great Britain and on the Continent, with the exception of fees payable to local forest officers in Great Britain and on the Continent.

10 *Allowances.*—The Secretary of State for India in Council will make payments to each probationer at the rate of 120*l.* annually, not exceeding a total of 240*l.* (besides the fees to local officers mentioned above). These payments will ordinarily be made on the following dates in each year:—

	£
On the 1st December	30
On the 1st March	30
On the 1st June	60

The cases of probationers whose probation does not extend over the full two years will be specially considered.

The grant of the allowances is subject to the following conditions:—

(*a*) that the progress of the probationer in his studies is satisfactory;

(*b*) that the probationer gives security to refund the payments in respect of this advance, as well as such payments, not exceeding 60*l.* in all, as may have been incurred by the Secretary of State on the probationer's behalf in respect of fees to local forest officers, in the event of his failing to qualify for an appointment in the Indian Forest Service, or not signing the articles of agreement as specified in paragraph 13, or failing to join the Indian Forest Service at the end of the period of probation.

11. *Conduct.*—Every probationer will be required to conduct himself during the period of probation in a manner satisfactory to the Secretary of State, and to give evidence of satisfactory progress in his studies in such a manner as may be required, failing which, or in the event of serious misconduct, he will be liable to have his name removed from the list of Probationers.

12. *Appointment and Seniority.*—Probationers who comply with the requirements of Regulation 8 within the sanctioned period of time, and also satisfy such other tests as may be prescribed, will be appointed Assistant Conservators in the Indian Forest Department, provided they are of sound constitution and free from physical defects which would render them unsuitable for employment in the Indian Forest Service. Their position in the Provincial Forest Lists will be determined by the Secretary of State for India in Council on the report of the Director of Indian Forest Studies; but in making selections for the post of Conservator, officers joining the service in the same year are reckoned as equal in seniority unless the Secretary of State for India in Council shall for special reasons have directed otherwise in any particular case or cases.

Probationers will be allowed at the end of the period of probation to state their preference in respect to the Provinces to which they desire to be allotted; but the distribution will be made to the several Provinces according to the needs of the public service, at the discretion of the Secretary of State for India in Council. Officers are, however, at all times liable to be transferred from one Province to another at the pleasure of the Government of India.

13. *Articles of Agreement.*—A probationer is required, on qualifying for appointment as Assistant Conservator, to sign articles of agreement setting forth the terms and conditions of his appointment; he must embark for India when required to do so by the Secretary of State, and must engage his own passage. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

14. *Passage Allowance.*—An allowance on account of passage to India will be paid to each probationer on appointment to the Indian Forest Service, to the amount of 37*l.* 10*s.* for passage to Calcutta, Madras or Bombay, and 43*l.* for passage to Rangoon.

Note.—The above is the normal rate of passage allowance. In consequence of the surtax of 10 per cent. at present charged by shipping companies in respect of passages to India the above rates of passage allowance have been raised to 41*l.* 7*s.* and 46*l.* 5*s.* respectively. Should this surtax be removed, these rates will be reduced to those given in paragraph 14

15. *Salary.*—An Assistant Conservator of Forests will draw pay at the rate of Rs. 380 a month (equivalent to 304*l.* a year, when the rupee is at 1*s.* 4*d.*) from the date of his reporting his arrival in India.

16. *Promotion, Leave, Pension, and Provident Fund.*—Promotion, leave and pension will be governed by the Regulations laid down by the Government of India, and applicable to Forest Officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and their interpretation in case of any doubt arising being left to that Government. A copy of the existing regulations can be seen on application at the India Office.

Certain information regarding appointments in the upper controlling staff of the Indian Forest Service, the pay of which has been recently improved, will be found in Appendix III; a summary of information regarding Leave is contained in Appendix IV; and regarding Pensions and the Provident Fund in Appendix V.

INDIA OFFICE, February 1914.

LEAVE.

Long Leave.

1. Furlough and special leave with allowances (*see* paragraph 5) are admissible to an aggregate maximum amount of six years during an officer's service. The amount of furlough "earned" is one-fourth of an officer's active service, and the amount "due" is that amount less any enjoyed.

2. Fulough without medical certificate can, if due, be generally taken after eight years' active service, and again after intervals of not less than three years' continuous service. It is limited to two years at a time.

3. Furlough on medical certificate may be granted (*a*) to an officer who has rendered three years' continuous service, for not more than two years, but capable of extension up to three years; and (*b*) to an officer who has not rendered three years' continuous service up to one year in any case, and up to such longer period, if any (but not exceeding two years in all), as the officer may have furlough "due" to him.

* The officer holding this appointment draws in addition to the pay of his grade a minimum local allowance of Rs. 200 a month.

† These appointments are allotted to the various provinces as follows:—Burma, 66; Madras, 31; Bombay, 27; Central Provinces, 24; United Provinces, 19; Punjab, 12; Bengal, 12; Assam, 13; and Bihar and Orissa 5; and 4 Imperial Instructors at Dehra Dun.

‡ Until he has passed the prescribed Departmental examinations, an Assistant Conservator is liable to stoppage of increments of pay. On passing the examinations he will resume drawing pay under the time scale at the rate to which his length of service entitles him.

§ These draw a local allowance of Rs. 150 a month in addition to their grade pay, with the exception of the President, Forest Research Institute and College, in whose case the allowance is at the rate of Rs. 200 a month. Of these 10 appointments, the four posts of Imperial Instructors have been sanctioned for five years from 1912, for the present.

NOTE.—Under the improved scale of salary shown above, no Exchange Compensation Allowance is granted.

4. The allowances admissible during furlough are :—

(1) During the first two years of furlough without medical certificate and during so much of furlough with medical certificate as may be "due"—half average salary, subject to certain maximum and minimum limits.

(2) After the expiration of the period for which the foregoing allowances are admissible—one quarter of average salary, subject to certain maximum and minimum limits.

5. Special Leave may be granted at any time for not more than six months, with intervals of six years' service; allowances, calculated as during furlough, are given during the first six months only, whether taken in one or more instalments.

Short Leave.

6. Privilege Leave is a holiday which may be granted to the extent of one-eleventh part of the time that an officer has been on duty without interruption; and it may be accumulated up to three months, earned by 33 months' duty. During privilege leave, the officer retains a lien on his appointment, and receives the salary which he would have received if on duty. An interval of not less than six months must elapse between two periods of absence on privilege leave.

Privilege leave may be prefixed to furlough, special leave, or extraordinary leave without allowances. The whole period of leave thus taken in combination is known as combined leave. Combined leave may not be granted for a period of less duration than six months, nor, except on medical certificate, may it be extended beyond two years.

7. Subsidiary Leave in India for a minimum of 10 days, usually with half average salary, is granted to an officer proceeding on or returning from leave out of India, or on retirement, to enable him to reach the port of embarkation or to rejoin his appointment. It is admissible only at the end and not at the beginning of combined leave.

8. Short Leave is also granted to enable officers to appear at examinations, &c.

9. Extraordinary Leave without allowances may be granted in case of necessity, and, except in certain specified cases, only when no other kind of leave is by rule admissible. It may be granted in continuation of other leave.

General Rules.

10. Leave of absence can never be claimed as of right, and is given or refused at the discretion of Government.

11. When leave allowances other than privilege leave pay are paid at the Home Treasury, or in a Colony where the standard of currency is gold, rupees are converted into sterling at the rate of exchange fixed for the time being for the adjustment of financial transactions between the Imperial and Indian Treasuries, unless any other rate has been exceptionally authorised. But for the present the rate of conversion is subject to a minimum of 1*s.* 6*d.* to the rupee. Privilege Leave pay when issued from the Home Treasury (this is only admissible when privilege leave is combined with other leave) is converted at 1*s.* 4*d.* to the rupee.

PENSIONS AND PROVIDENT FUND.

1. An officer of the Indian Forest Service is eligible for a pension on voluntary retirement after completing 20 years' qualifying service or attaining the age of 55 years. If at an earlier date he is compelled to retire from the service through ill-health, not occasioned by irregular or intemperate habits, he becomes eligible for an invalid pension or a gratuity according to the length of his service.

The amount of pension or gratuity is regulated as follows :—

After a service of less than 10 years, an invalid gratuity not exceeding one month's emoluments for each completed year of service.

After a service of not less than 10 years an invalid pension not exceeding the following amounts :—

Years of Completed Service.	Maximum Limit of Pension.
10	Rs. 1,000 a year.
11	„ 1,400 „
12	„ 1,800 „
13	„ 2,200 „
14	„ 2,600 „
15, 16, 17, 18, 19	„ 3,000 „

After a service of not less than 20 years, a retiring pension not exceeding the following amounts :—

Years of Completed Service.	Scale of Pension. Sixtieths of average Emoluments.	Maximum Limit of Pension.
20 to 24	30	Rs. 4,000 a year.
25 and above		„ 5,000 „

Officers who have shown special energy and efficiency during an effective service of three years as Inspector-General of Forests or Conservator may, at the discretion of the Government of India, be allowed an additional pension of Rs. 1,000 a year, subject to the condition that the officer must not retire voluntarily before the completion of a total qualifying service of 28 years.

Subject to certain prescribed conditions, rupee pensions are now issued to pensioners residing in countries where the Indian rupee is not legal tender at the rate of exchange of 1*s.* 9*d.* the rupee.

2. A General Provident Fund has also been established on the following basis :—

(*a*) The contribution is compulsory up to 6¼ per cent. on salaries, with voluntary contributions of not more than a further 6¼ per cent. Subscriptions on leave of any kind are optional.

(*b*) Compound interest on such payments is annually credited by Government to each officer subscribing, the rate being at present 4 per cent. per annum.

(*c*) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him, unconditionally, on quitting the service; or, in the event of his death before retirement, to his legal representatives or such other person or persons as, under and subject to the rules of the Fund for the time being in force, may be entitled thereto.

(*d*) Other forms of life insurance will, however, if they fulfil certain conditions, be accepted in lieu of the contributions in (*a*).

APPENDIX VI.

GENERAL PHYSICAL REQUIREMENTS.

[*Note.*—These Regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Secretary of State reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service ; and that his discretion is in no respect limited by these Regulations.]

1. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty.

2. In the examination of candidates the Medical Board will apply the following table of correlation of age, height, and chest girth :—

Age.	Height without shoes.	Chest.	
		Girth when expanded.	Range of Expansion.
	Inches,	Inches.	Inches.
19 to 20 ...	62½ and under 65	35	2
	65 „ 68	35	2
	68 „ 70	35½	2
	70 „ 72	36	2
	72 and upwards	36½	2½
21 and upwards	62½ and under 65	35	2
	65 „ 68	35½	2
	68 „ 70	36	2
	70 „ 72	36½	2½
	72 and upwards	37	2½

3. *Measurement of Height.*—The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet. He will stand erect without rigidity, and with the heels, calves, buttocks, and shoulders touching the standard ; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the hight will be noted in parts of an inch to eighths No fixed limit of height is imposed.

4. *Measurement of chest.*—The candidate will be made to stand erect, with his feet together, and to raise his hands above his head. The tape will be carefullly adjusted round the chest, the posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. This maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and the maximum will then be recorded.

5. The hearing must be good.

6. The speech without impediment.

7. The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth where necessary for effective mastication.

8. The chest must be well formed, the lungs and heart sound.

9. Rupture, hydrocele, varicocele, varicose veins in a severe degree, or other condition likely to cause inefficency will disqualify a candidate, unless such condition is cured by operation.

10. The limbs, feet, and toes must be well formed and developed, with free and perfect motion of all the joints.

11. A candidate must have no congenital malformation or defect likely to interfere with efficiency.

12. A candidate must not be the subject of chronic skin disease.

13. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.

14. Candidates may, if they wish it, undergo a preliminary examination by the Medical Board, which meets at the India Office every Tuesday under the following conditions:—

(*a*) Applications must be addressed to the Under-Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas.

(*b*) Candidates must pay their travelling expenses.

(*c*) It must be understood that the opinion of the Medical Board, which will be communicated by the Board to the candidate at the end of the examination, is solely for the candidate's own information and is not an official finding. The Board, if they consider a candidate unfit, will exercise their discretion as to informing him of the particular grounds on which their opinion is based. No further information can in any case be given.

(*d*) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may, *at their own risk*, continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board prior to their appointment.

(*e*) As the preliminary examination by the Medical Board is held solely for the candidate's information, a candidate who is informed after such an examination that he is physically fit will have on that account no claim to be accepted as physically fit when he presents himself for the final medical examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the Service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or passed undetected at the preliminary examination, or for other reasons.

REGULATIONS AS TO THE STANDARD OF VISION FOR THE INDIAN FOREST SERVICE.

1. If myopia in one or both eyes exists, a candidate may be passed, provided the ametropia does not exceed 2·5 D, and if with correcting glasses not exceeding 2·5 D, the acuteness of vision in one eye equals $\frac{6}{9}$ and in the other $\frac{6}{6}$, there being normal range of accommodation with the glasses.

2. Myopic astigmatism does not disqualify a candidate for service, provided the lens or the combined spherical and cylindrical lenses required to correct the error of refraction do not exceed — 2·5D; the acuteness of vision in one eye, when corrected, being equal to $\frac{6}{6}$, and in the other eye $\frac{6}{9}$, together with normal range of accommodation with the correcting glasses, there being no evidence of progressive disease in the choroid or retina.

3. A candidate having total hypermetropia not exceeding 4 D is not disqualified, provided the sight in one eye (when under the influence of atropine) equals $\frac{6}{9}$, and in the other eye equals $\frac{6}{6}$ with + 4 D or any lower power.

4. Hypermetropic astigmatism does not disqualify a candidate for the service, provided the lens or combined lenses required to cover the error of refraction do not exceed 4 D, and that the sight of one eye equals $\frac{6}{9}$ and of the other $\frac{6}{6}$, with or without such lens or lenses.

5. A candidate having a defect of vision arising from nebula of the cornea is disqualified if the sight of one eye be less than $\frac{6}{12}$. In such a case the better eye must be emmetropic. Defects of vision arising from pathological or other changes in the deeper structures of either eye, which are not referred to in the above rules, may exclude a candidate for admission into the service.

6. Squint or any morbid condition, subject to the risk of aggravation or recurrence, in either eye, may cause the rejection of a candidate. The existence of imperfection of colour sense will be noted on the candidate's papers.

DRAFT RULES UNDER SECTION 24 OF THE PROVIDENT INSURANCE SOCIETIES ACT, 1912.

Short title

1. These rules may be called the Bengal Provident Insurance Societies Rules, 1914.

Definitions

2. In these rules, unless there is anything repugnant in the subject or context,—

(*a*) "the Act" means the "Provident Insurance Societies Act, 1912";

(*b*) "society" means a Provident Insurance Society to which the Act applies;

(*c*) "provident insurance business" means any class of business to which the Act applies;

(*d*) "dividing society business" means provident insurance business under which the amount payable on the policy money becoming due is not fixed but depends either partly or wholly on the results of the division of any portion of the premium income or funds amongst the policies which have become due for payment in proportion to the premiums received under each class in any specified period;

(*e*) "bond investment business" means the issue of bonds or policies by which the society, in return for premiums or subscriptions payable at periodical intervals of one year or less, contract to pay the legal holder of the bond or policy a sum at a future date either with or without the other specified benefits such as the right to share in the profits of the society or to an advance for certain specified objects, and not being life assurance business;

(*f*) "ordinary life assurance business" means life assurance business transacted on similar lines to those adopted by ordinary life assurance companies, namely, by granting annuities on human life, or by assuring a fixed sum payable at death, on survivance or on the happening of any contingency dependent on human life in return for a premium which is fixed at the outset for each age at entry. This shall not exclude the case of sums assured and premiums which vary as the result of bonus ascertained by an actuarial valuation conducted in the manner provided for in the Fourth Schedule to the Indian Life Assurance Companies Act, 1912.

Contingencies prescribed under the Act

3. The provisions of the Act shall, in addition to the contingencies of birth, marriage and death prescribed in clause (*8*) of section 2 of the Act, extend to the receipt of premiums, or contributions for insuring money to be paid on the happening of any of the following contingencies, or of any

other uncertain event coupled therewith, and shall apply to any society receiving such premium or contributions, namely :—

No item can be included in the funds at the end of the year which was not included in the funds at the beginning of the year unless it is shown as an item of income of the year. Some of these outstanding items which have been taken credit for as an asset may never be paid at all. The amount of those not realised will have to be written off through the Revenue Account and the funds will be decreased accordingly.

No. 2.—Notification.—In exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council is pleased to make and fix, with effect from the 1st May 1914, the following rules and schedule of rates of tolls for the navigable channels of the Magra Hât Drainage scheme, as defined in Notification No. 4, dated the 22nd April 1913 (published at page 634, Part I, of the *Calcutta Gazette* of the 23rd idem).

A. C. DEL. JOLY DELOTBINIERE, LT.-COL., R.E.,
Offg. Secy. to the Govt. of Bengal.

RULES FOR THE MAGRA HÂT CHANNELS.

1. Every vessel entering or making use of the Magra Hât channels shall be liable to measurement for the purpose of ascertaining the tolls payable. In case of any reasonable doubt, the persons appointed by the Governor in Council as Collectors of Tolls or Navigation Canal Officers shall have authority to again measure a vessel notwithstanding that it was measured before.

2. Vessels for the purpose of the determination of maundage shall be divided into three classes as follows :—

Class I.—To include all vessels of the usual native types of build known as saltees, but not *bonâ fide* tal (or palm-tree) dongas and not exceeding 50 maunds by canal measurement.

Class II.—To include all other vessels of usual native types of build or cutters.

Class III.—To include all steamers, flats, barges and other square-built boats.

The net maundage of every vessel, whether laden or empty, shall, for the purposes of the Canals Act, 1864, and of these rules be determined by the following measurements :—

CLASS I.

A.—The product of one-quarter the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel multiplied by three-quarters of the depth, measured from the top of the vessel amidships to the interior bottom of the vessel is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length to be made in feet, rejecting inches, and of the breadth and depth in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—Any vessel the maundage of which calculated as above exceeds 50 maunds shall be reckoned as a vessel under class II.

CLASS II.

A.—The product of one-quarter the length of the vessel from stem to stern measured outside and along the water line, multiplied by the greatest interior breadth of the vessel multiplied by the greatest interior depth from the water line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches, the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, rejecting any remainder of less than 12½ maunds. In the case of boats exceeding 500 maunds by measurement the maundage shall be reckoned to

the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—In the case of boats carrying passengers only, one foot shall be deducted from the full interior depth of the vessel, the other measurements and the calculations for maundage being made in the methods prescribed for vessels under Class II.

CLASS III.

A.—For vessels of class III, the number of maunds obtained by the system of measurement prescribed for vessels of class II shall be increased by one-half. For vessels of this class exceeding 1,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds rejecting any remainder of less than 100 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

B.—In case of steamers that have been surveyed under the Inland Steam-vessels Act, 1884, the registered tonnage entered in the certificate may be accepted as the tonnage of the steamer in lieu of measurement.

3. All vessels under class I, known and defined as saltees, will be charged under a system of compounded tollage in accordance with rules contained in Appendix A.

4. Every vessel included in classes II and III entering or passing along the canal shall be furnished with a ticket on paying the prescribed toll. The ticket shall specify the station at which it has been issued, the name of the person in charge of the vessel, the date on which the voyage commenced, the point to which the vessel may proceed on the line of navigation, the maundage of the vessel, the amount of toll charged, the number of days allowed for the voyage, and the date of such last day. The number of days so allowed without additional payment shall be calculated as follows :—

Boats.—One day for every eight miles or portion of eight miles, to be traversed together with one day for every 100 maunds of measurement or part of 100 maunds.

Floats (timber).—One day for every five miles for any number of timbers not exceeding fifty, and one day for every additional fifty or part of fifty.

Rafts (bamboos).—One day for every five miles for any number not exceeding five hundred and one day for every additional five hundred or part of five hundred.

5. Every vessel which does not complete its voyage within the number of days allowed by rule 4 shall, for each day or part of a day in excess, be liable to an extra charge equal to one-half of the toll payable on the maundage of the vessel as per the Schedule of Rates in Appendix B, provided that in no case shall the demurrage charged exceed Rs. 5 per diem. The Superintending Engineer may, at his discretion, exempt any boats on any line of navigation, or any portion of line of navigation from the payment required by this rule.

Exemption from payment of demurrage may, at the discretion of the Collector of Tolls, be granted for vessels detained in the channels (steamers broken down and boats damaged) by stress of weather, should immediate notice of detention, for the information of the Collector of Tolls, Magra Hât channels, be given to the nearest toll-station.

6. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed: Provided that the Collector of Tolls may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

7. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to do so. If, on demand, the ticket is not produced, such person shall assess the tollage as provided in rule 2, and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel will be liable to seizure and detention in accordance with the provisions of section 9 of the Canals Act, 1864.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of Re. 1. Provided that for tickets on which the

total tollage is less than Rs. 4, the fee to be charged for a duplicate shall be one-quarter of the total tollage with a minimum of As. 1.

9. A vessel, which has been detained under these rules or under section 9 of the said Act, may not be removed from the canal without the order of the Collector of Tolls until the toll due has been paid. During such detentfon the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

10. All vessels, whether the property of Government or of private owners, are liable for toll, except those exempted by the provisions of Bengal Government Circular No. 11., dated the 11th July 1906.

11. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor or Navigation Canal Officer. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

12. At places where mooring posts have been provided by the Supervisor or Navigation Canal Officer, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor or Navigation Canal Officer may direct, and shall not be moored in any other manner.

13. The Supervisor or Navigation Canal Officer may, by written notice to be posted at the toll offices, prohibit the dropping of anchors or the putting up of bamboos or luggees in any specified part of the canals or on the banks.

14. Vessels shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor or Navigation Canal Officer from time to time, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety or obstruct the passage of other boats. Every vessel, when stationary, shall be securely fastened, and shall at all times have some person in attendance on board. Every vessel in motion shall have a sufficient crew.

15. Vessels passing through the canals shall keep in separate lines, empty boats keeping close to the bank, and those that are laden in the centre.

16. In portions of the canals where only one towing-path exists, vessels shall moor on the side opposite to the towing path, and the towing-path side shall always be kept clear.

17. Iron-built cargo-boats, with outside angle iron projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle iron so as to prevent them from causing damage to the locks.

18. No fire, or open, unprotected light of any description shall be used on boats containing petroleum, jute, hay or straw in any place prohibited by the Navigation Canal Officer or Supervisor, and no fire, or open, or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

19. No person shall wilfully or negligently allow a vessel to sink in the canals.

20. In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor or Navigation Canal Officer and his subordinates shall offer every assistance in removing the same.

If in three days after the occurrence of a wreck it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor or Navigation Canal Officer and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that, in cases where navigation is seriously obstructed, arrangements may be made at once to remove the wreck.

21. When a sunken vessel has been recovered, the Supervisor or Navigation Canal Officer shall cause notices to be posted at the locks, toll offices or other prominent places calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the vessel and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Canals Act, 1864.

22. The purchaser of a vessel sold under the provisions of section 9 of the said Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

23. When any laden vessel which has sunk has been recovered, or when any laden vessel has been seized under the provisions of the said Act or of these rules, the Supervisor or Navigation Canal Officer shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

24. If the Supervisor or Navigation Canal Officer be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 21 shall be effected by a notice exhibited in his office and by advertisement in at least one English and one vernacular Calcutta newspaper.

25. No steam-vessel, whose length exceeds thirty feet, shall ply in the Magra Hât channels except in the following:—Diamond Harbour creek, Usti Nainan outfall, Nazra khal, Sangrampur khal up to Sangrampur bridge, and the Surjipur outer khal up to the Surjipur bridge.

26. *Lights and Signals.*—All vessels, whether travelling or moored in the Magra Hât channels, must, between sunset and sunrise, carry a white light in a lantern on the forepart of the vessel where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed above.

27. *Speed of vessels.*—Every vessel plying in the Magra Hât channels must, between sunset and sunrise, limit her speed to three miles per hour. No steam-vessels shall ply between sunset and sunrise in channels detailed in rule 25.

28. No vessel shall remain in the outer entrance channels of the locks at Diamond Harbour and Uttarbhag nor in the inner lock channel and diversion channel of the Diamond Harbour lock and sluice, nor in the approach channels to any sluice. A board will be put up limiting the portion of the channels in which boats are not permitted to moor.

29. The places at which boats cannot be loaded or unloaded will be fixed by the Superintending Engineer, South-Western Circle, and will be demarcated with suitable posts and notice boards.

30. For any contravention of rules 10, 14, 15, 16, 17, 19, 20, 26, 27 and 28, the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 for any one infringement, or Rs. 5 a day for any continuing infringement.

31. The channels may be closed, whenever necessary, for effecting the necessary repairs to them on one month's notice of the intention so to close them being given; but, in the event of any sudden emergency, the channels may be closed at any time without prior notice, and no claim in such cases by owners of vessels or others for compensation on account of detention or otherwise shall be entertained.

32. The term "Navigation Canal Officer," as used in these rules, shall include all persons appointed to collect tolls under section 8 of the Canals Act, 1864, and all Public Works officers or subordinates in charge of the channel, not below the grade of Sub-Overseer.

33. No vessel whose beam exceeds 19 feet will be permitted to enter the channels through the Diamond Harbour lock. The same prohibition will apply in the case of the Uttarbhag lock to all vessels exceeding 14 feet beam.

34. Any vessel which enters the channels through the Diamond Harbour lock for the purpose of taking refuge during stormy weather will be charged a nominal toll of As. 8 per boat, provided the vessel leaves the channel again as soon as the weather conditions permit, and does not load or unload cargo inside the channel. All vessels seeking refuge under this rule must anchor in the creek close to the toll-collector's office and will not be permitted to proceed up the creek without paying the usual tolls.

35. Any vessel entering the channels through the Diamond Harbour lock and proceeding to load or unload at the Diamond Harbour station only will be charged tollage at the rate of As. 2 per 100 maunds to include the return journey. Should such boats proceed up the creek, they will be charged the ordinary tolls.

APPENDIX A.

Rules for licensing and registration of saltees or vessels under class I.

1. As provided for under rule 3, no vessel coming under class I, rule 2, shall ply, whether regularly or only occasionally in, or partly within and partly without the limits of, the Magra Hât channels unless licensed and registered by the Collector of Tolls of the Magra Hât channels.

2. Every owner of a vessel or his agent or manjhi shall apply to the Collector of Tolls, Magra Hât channels, for licensing and registration, giving the owner's name and residence or those of his agent duly authorised to act for him.

3. Every license granted under these rules shall continue in force for either six months or one year from the date of issue.

5. The license certificate granted for a vessel should contain the registered number of the vessel, owner's name and residence, name of manjhi, the maundage measurements, amount of compounded tollage and the dates of issue and expiry and shall be kept on board. It shall be produced, when required, by a Navigation Canal Officer and shall be delivered up on the expiration of the license.

6. The charge for the issue of a duplicate license to vessels in lieu of those defaced or lost is Re. 1.

7. The registered number of every licensed vessel shall be engraved. or branded, as well as painted in figures easily discernible on both sides of the vessel for which a charge of Re. 1 will be made. These figures shall be legibly maintained during the period of the license.

8. On the expiration of the license the manjhi shall deliver up his ticket to the toll collector at the station from which it was issued.

9. No person in charge of any licensed vessel plying within the limits of the Magra Hât channels shall use or have any ticket resembling those granted under the authority of these rules.

10. Every renewal of a license shall, unless the Navigation Canal Officer considers it unnecessary, involve the issue of a fresh license certificate without alteration in the registered number of the vessel.

11. Every vessel under class I, found plying in the channels without being licensed and registered shall be charged a demurrage rate of Rs. 3 for every such offence, provided that such vessel is not proceeding to the nearest toll station for the purpose of obtaining a license and being registered.

FOURTH SCHEDULE.

Statement respecting the Valuation of the Liabilities under Life Policies of the National Indian Life Insurance Company, Limited, made by the Actuary.

I.

The date up to which the Valuation is made is 31st December 1911.

II.

The principles upon which the Valuation is made are determined by the Directors in accordance with the Articles of Association of the Company. Sections 139 and 140 of the Articles are as follows :—

139. "The Directors shall cause an actuarial investigation to be made into the financial condition of the Company so far as concerns its life insurance business only as at a date not later than five years after the incorporation of the Company and quinquennially thereafter or at such shorter periods as the Directors shall determine on such basis of valuation and by such methods as they may think fit and after making such provisions as the Actuaries shall think desirable for any special or other Reserve Fund shall determine the amount of profit (if any) which is divisible and such declaration shall be conclusive and binding on the members and policy-holders. After the Company has determined to carry on any business other than that of life insurance, the Directors may, if and whenever they see fit, cause a similar investigation to be made into the financial condition of any particular branch of the Company's business other than life insurance and may determine the amount of profit (if any) to be divided in respect of that particular branch."

140. "The holders of participating policies shall be entitled to receive by way of bonus nine-tenth parts of the divisible profits arising from the life insurance business of the Company as declared at the actuarial examination and such share of the profits shall be distributed among the participating policy-holders at such time on such principles and by such methods either by anticipation (in the case of policies becoming claims between any two divisions of profits) or otherwise as the Directors may from time to time determine. And the Directors may, if they see fit, guarantee on behalf of the Company the payment to the holders of any particular class or classes of policies issued by the Company of a bonus not exceeding one-half per cent. of the amount of such policies, such bonus to be payable on maturity of the policies and to be included in and form part of the working expenses of the Company."

The liabilities were, with the exception of a few minor classes of Assurance, valued on a net premium basis, by taking the difference between the present value of the Sums Assured and the present value of the future net Premiums receivable, such net Premiums being those for one year older than the nearest age at entry, except in the case of Endowment Assurances where one year older than the true age next birthday at entry was used. A further addition of six years was made to all ages to allow for climatic extra. In a few minor classes of Assurance the Reserve is a proportion or accumulation of the premiums paid. Policies on under-average lives, for the whole term of life, were valued at the rated-up age. Other classes including Endowment Assurances were valued at the true ages, half the year's extra

THE NATIONAL INDIAN LIFE INSURANCE COMPANY, LIMITED—*contd.*

premium being added to the Reserve. A Reserve has also been made to provide for the unexpired risk in the first year of Assurance.

III.

The Table of Mortality used in the Valuation was the British Offices Life Tables (1893) Om with six years added to all ages.

IV.

The rate of interest assumed in the calculation was Three and One-half per cent.

V.

Provision for future expenses and profits has been made by reserving the whole of the "Loading," or difference between the Premiums actually payable and the net Premiums calculated as above; and by the assumption of a lower rate of interest than that being earned by the Funds.

The "Loading" reserved represents 23·4 per cent. of the relative Office Annual Premiums in respect of Assurances With Profits and 13·4 per cent. in respect of Assurances Without Profits.

The average rates of interest (after deduction of Income-tax) earned on the mean Funds of the Company during each of the past five years were as follows:—

1907	...	...	...	...	4·79 per cent.
1908	...	...	...	...	4·40 " "
1909	...	...	...	...	4·20 " "
1910	...	...	...	...	4·52 " "

The rate of interest given is that realised on the Paid-up Capital and the Life Funds. The whole of the interest on the former was, however, carried to the Life Fund.

XI.

The guaranteed minimum Surrender Value of ordinary Whole Life Assurances with uniform premiums payable throughout life, which have been three full years or more in force, is Thirty per cent. of the premiums actually paid.

THE NATIONAL INDIAN LIFE INSURANCE COMPANY, LIMITED—*concld.*

The Surrender Values of Double Endowment and Special Provident Assurance Scheme Policies are the subject of special arrangement.

The guaranteed Surrender Value of Pure Endowments is the return of all the premiums actually paid accumulated at two per cent. compound interest.

BANK OF BENGAL,

Calcutta, the 26th March 1914

Public Works Department, Bengal.

NOTICE.

FOR maintenance and working of the Barkal Tramway and rolling-stock from Peshkcherra to Chaltatali, 1½ miles long, on the right bank of the river Karnafuli, in the Chittagong Hill Tracts.

The Superintendent, Chittagong Hill Tracts, Public Works Department, invites tenders for the above work for a period of 12 months from 1st April 1914. A copy of specification for the said work is given in schedule A. A summary of conditions, maximum rates for passengers and luggages, etc., on which the contract will be drawn up, can be seen from the subjoined copy of current agreement with contractor Babu Kailash Chandra Mittra, of Suvarnagram, Dacca, given in schedule B.

The undersigned is prepared to consider any subsidy if required for the maintenance of the service.

A list of rolling-stock, plant, bridges, buildings and furniture, etc., to be maintained is given in schedule C.

Each tender must be accompanied by earnest money in currency notes, amounting to Rs. 25 only, which will be returned in case of the tender not being accepted, and will be treated as security in the case of the successful tenderer.

Tenders must be forwarded in sealed cover, addressed to the Superintendent, Chittagong Hill Tracts, Public Works Department, Rangamati, and must reach him on or before the 27th March 1914. The cover should be superscribed in red ink "Tender for working and maintenance of the tramway line, rolling-stock, etc, at Barkal from April 1914, to be opened on the 28th March 1914." Unless so superscribed they are liable to be returned without consideration.

The Superintendent, Chittagong Hill Tracts, does not bind himself to accept the lowest tender or to assign any reason for non-acceptance.

O. MAWSON, Superintendent, Chittagong Hill Tracts.

Rangamati, the 4th March 1914.

SCHEDULE A.

Specification.

For working the Barkal Tramway and maintenance of the line and the rolling-stock the contractor will employ a work agent and a staff of (say) six men at Barkal, varying in strength according to the traffic and stress of work on the line.

The contractor will be responsible for keeping waterways and approaches of bridges perfectly clear all through the year and taking care of all bridges and culverts on the tramway and of Government buildings and for executing petty repairs thereto as occasion arises (save annual repairs to bridges and buildings) and for the safe custody of all furniture and stores at Barkal. All stores used up or rendered unserviceable by the contractor must be replaced at his cost.

Except where the line is fairly level and straight, the trollymen must not get on the trolly especially when it is running down a slope. Sleepers should be well packed with earth to give an even bearing surface and necessary camber to the rails The line should be maintained in smooth uniform straight lines and curves, the inside of adjacent rail heads being kept in one uniform-line (to prevent jolting and breakage of wheels, axle-boxes, etc) by properly placing the sleepers and keying the rails thereto.

All worn-out parts of trucks and trollies to be renewed and all damaged or broken parts to be replaced by the contractor.

Axle-boxes of trucks should always be kept well lubricated with oil, etc., and to be maintained in a perfectly clean condition. All wrought-iron or steel work to be painted with redlead paint

The whole length of the line, about 1½ miles in length, to be kept clear of slips caused by rain or otherwise and of all jungle growth all through the year for a width of about 60 feet.

Similarly the approaches to the rest-houses and to the river in the different places on the line should be properly maintained and kept clear of jungle, etc., to the usual width.

A clear width of 10 feet for road way with ordinary barrelled surface of road, side drains and cross drains for free drainage with small cut as outlets or water passage at short intervals from the outer drains to prevent the tract being cut away by the drainage should be maintained by widening where necessary with about two feet wide side parapet of earth to prevent accidents and to stop derailed tracks.

After the rains are over, all irregularities or hollows in the roadway should first be levelled off, and when his is done, fresh earth cut from the hill side added so as to make up the road to the prescribed section, that is to give a camber or rise of 1 in 12 inches, the centre of the roadway. The new earthwork must be consolidated by ramming or rolling early in the morning of the day following that on which it is put on the road, so as both to retain the moisture in the soil, and to take advantage of the dew before it evaporates.

SCHEDULE B.

2. *Clause 2.*—(*Definitions.*)—We have slightly modified the definition of "the Medical Acts" with a view to greater precision, and have added a definition of "registered practitioner" which seems necessary.

3. *Clause 4.*—(*Constitution of the Council.*)—This clause is perhaps the most important in the Bill, and in its original form has been the subject of much criticism. We have carefully considered the whole question of the constitution of the Council, and we have decided, in view of the very general desire that the Council should be enlarged, to recommend that the Council should consist of fifteen members instead of nine. Of these fifteen members, eight are to be nominated by Government, while the remainder (with the exception of the member to be elected by the Senate of the University of Calcutta) are to be elected by constituencies of medical practitioners registered under the Act. It will be observed that we have provided that two of these constituencies are to be restricted to registered practitioners practising outside Calcutta, for we are of opinion that it is essential that the interests of medical men working outside the Presidency Town should be duly recognised. A Council thus constituted will, we consider, be thoroughly representative of the medical profession throughout the Province and is likely, therefore, to command general approval. In view of the very substantial drafting modifications which these changes have necessitated, we have removed the original clause 4 from the Bill and replaced it by a new clause.

4. *Clause 6.*—(*Appointment of Members in default of election.*)—(*1*) In sub-clause (*a*) of this clause we have struck out the words "entitled to be" as it is desirable that no one who is not actually registered under the Act should be qualified to serve on the Council.

(*2*) We have also added a proviso, based upon clause 6 of the Madras Bill (as amended by the Select Committee), which provides for the case of first nominations and elections under the Act.

5. *Clause 9.*—(*Cessation of membership.*)—This clause has been entirely recast on the lines of clause 8 of the Madras Bill. We have not thought it necessary to retain any provision similar to sub-clause (*2*) (*ii*) of the original Bill seeing that the members of the Council, as reconstituted by us, will not, save in one case, necessarily belong to any particular electoral section ; but we have added a provision to the effect that, on the occurrence of any vacancy such as is contemplated by sub-clause (*1*), the President of the Council must immediately notify the fact to the Local Government.

6. *Clause 10.*—(*Filling of casual vacancies in certain cases.*)—We do not think it necessary to provide for temporary vacancies due to leave granted by the Council.

7. *Clause 11.*—(*Term of office of Members.*)—In view of the alterations made by us in clauses 4, 9 and 10, the elaborate provisions of sub-clause (*2*) of this clause, as introduced, are unnecessary and have been removed from the Bill.

8. *Clause 12.*—(*Meetings.*)—The increase in the size of the Council recommended by us requires a corresponding enhancement in the number of members necessary to constitute a quorum from five to eight; while we have also provided in this clause that, in the absence of the President, the member presiding at a meeting in his place shall have a casting vote ; and that, pending the framing of regulations under this clause, the President shall have power to summon a meeting.

9. *Clause 14.*—(*Establishment for the Council.*)—We have recast this clause considerably. We do not consider it essential for the Local Government to sanction the appointment of the ministerial establishment of the Council ; on the other hand, it is desirable that they should have some control in the selection of the Registrar and in fixing the amount of his salary. We have, therefore, in the first part of this clause, laid it down that the previous sanction of the Local Government shall be necessary to the appointment of the Registrar and to the payment to him of such emoluments as the Council may determine ; while, in the second sub-clause, we have left it to the Council alone to appoint such other officers, clerks and servants, and to fix such salaries for the same as they may deem necessary.

10. *Clause 17.*—(*Persons referred to in Schedule entitled to be registered.*)—The provisions in this clause which entitle the Council to refuse, in certain circumstances, to register the name of an applicant for registration have been considerably amplified by us. We have defined the bar of a criminal conviction in the same terms as in the case of an election to the Council [sub-clause (*b*) of clause 6] ; and we have provided that when a charge of infamous conduct is brought, the person whose conduct is under inquiry can claim to be heard either personally or by advocate. We also consider it desirable, in the interest of all concerned, that the inquiry should, in the discretion of the President, be held *in camera.*

11. *Clause 18.*—(*Amendment of Schedule.*)—We have removed from this clause the reference to Article 2 of the Schedule on the ground that it is incumbent on Government to maintain the standard of medical education in the University irrespective of the provisions of this Bill ; and by the insertion of the words "if they think fit" in the second half of the clause, we have sought to make it quite clear that in dealing with any recommendations by the Council for the amendment of the Schedule, the Local Government are to have an entirely free hand.

12. *New clause 18A.*—There is nothing in the Bill, as introduced, to enable the Council to call on the governing body or authorities of a Medical College or School to provide such information as may be necessary for the Council if they are duly to carry out the functions which it is contemplated by clause 18 that they should perform. It seems to us necessary that this omission should be remedied, and we have accordingly inserted a new clause, on the lines of a similar provision which exists both in the Bombay Act and

in the Madras Bill as amended by the Select Committee, which confers power upon the Council to call for all necessary information and to depute a representative to attend examinations held by Medical Colleges or Schools.

13. *Clause 22.*—(*Appeal to Council from decision of Registrar.*)—We consider that it is desirable that a period of limitation, within which the appeal permitted by this clause must be filed, should be provided, and we have accordingly fixed the period at three months.

14. *Clause 24.*—(*Removal of names from register.*)—Sub-clause (*a*) of this clause has been recast on the lines of clause 17 as amended by us, as it is obviously convenient that the same provisions should apply in both cases.

15. *New clauses 24A and 24B.*—In deference to the view (which has been very generally expressed in the "Opinions" which we have considered) that a decision given by the Council on any inquiry held by them under clause 17 or clause 24, as the case may be, should not be final, we have provided in clause 24A for an appeal to the Local Government against a decision of the Council; but we are strongly of opinion that, if this is done, it is necessary, for obvious reasons, to bar the right of recourse, in addition, to the Civil Courts (*see* clause 24B). This course is the same as that which has been adopted by the Select Committee on the Madras Bill, and these two new clauses are based on the corresponding provisions of that measure.

16. *Clause 25*—(*Notice of deaths, etc.*).—We have amplified sub-clause (*2*) of this clause and thereby empowered the Registrar to erase the name of a deceased practitioner from the register on receipt of any reliable information other than the certificate of a Registrar of Deaths.

17. *Clause 27*—(*Constructions of references in Acts to Medical Practitioners*).—By a slight modification of the second portion of this clause, which will now lay down that no certificate required to be given by any medical practitioner or medical officer under any Act in force in Bengal shall be valid unless such practitioner or officer is registered under the Medical Acts or this Act, we have sought to remove a very general misconception which has seemingly prevailed in regard to the scope of this provision.

18. *Clause 27 A*—(*Unregistered persons not to hold certain appointments*).—We have thought it desirable to state specifically that unregistered practitioners shall not be put in charge of public hospitals. The statutory rules under the Bengal Municipal Act (Ben. Act III of 1884) and the Local Self-Government Act (Ben. Act III of 1885) have this effect at present, but it is preferable to follow Madras and Bombay in making the necessary provision in this Act. It should be noted, however [*see* clause 1(*3*), proviso], that this clause will not come into operation until such date as the Local Government may notify in this behalf.

19. *Clause 29*—(*Rules and Regulations*).—It seems to us that this clause, as introduced, is misconceived. In our opinion the general power to make rules to carry out the purposes of the Act should rest with the Local Government and not with the Council, and we have recast the clause accordingly. We have further thought it necessary to add a provision specially empowering the Local Government to make rules for the regulation of the procedure to be followed by the Council in conducting any inquiry, or disposing of any appeal, under the Act; while, as sub-clause (*5*) of this clause is no longer necessary in view of the amendments made by us herein, we have struck it out.

20. *The Schedule.*—In Article 2 of the Schedule we have, at the instance of a medical member of our Committee, inserted a reference to the degree of "Master of Obstetrics", which is conferred by the Calcutta University. In Article 3 we have made some purely verbal amendments which need not be particularized.

21. We recommend that the Bill, as now amended by us, be passed.

Secretary to the Bengal Legislative Council.

* This member signed subject to his Note of Dissent.

NOTE OF DISSENT BY THE HON'BLE DR. NILRATAN SARKAR.

1. *Clause 17, sub-clause (b) and clause 24, sub-clause (a).*—I am of opinion that the decision as regards "infamous conduct" (a term which is nowhere defined) should be arrived at by a substantial majority of the Council. If two-thirds of the members present hold that a particular conduct is infamous, the accused person will have very little reason to complain. It is an elementary principle in law that not only justice should be done but the parties concerned must feel that no injustice was likely to have been committed. These clauses may seriously affect individual rights and it is desirable that there should be a right of appeal to the High Court against the decision of the Council. The Council in such cases will sit as a tribunal and as such their function will be judicial; and it is only proper that the individual concerned should have the right of appeal to the highest judicial authority in the land. The right of appeal to Government has been granted; but as the majority of the proposed Council of Medical Registration will consist either of Government servants or Government nominees, an appeal to Government from their decision will not command confidence. I would, therefore, prefer to have the right of appeal to the High Court.

2. *Clause 18.*—There is no provision here for appealing to Government against the decision of the Council and no procedure by which the party concerned may approach the Government if the Council declines to make any recommendation. The Government should retain larger powers here so that they can decide any case according as it appears to them on the report of the Council or on independent grounds. The Bombay Act (section 20) gives the Government wider powers, and the proposed Bill in Madras also is more liberal than the Bengal Bill in this respect.

Bom. Act VI of 1912.

3. *Clause 24 B.*—I doubt the right, and certainly question the wisdom, of introducing in Select Committee a clause of this nature. There was no such provision in the original Bill, and no mention of the principle was made in the Statement of Objects and Reasons. And yet this provision seeks to deprive the persons concerned of a very valued privilege and probably of their only safeguard; for it will certainly lessen the sense of responsibility of the Medical Council. Moreover, it is extremely doubtful if a Local Legislature can take away a civil right (*see* the case of Secretary of State for India *versus* Moment decided by the Privy Council and reported in 17 C.W.N., p. 169).

4. *Clause 27 A.*—This clause will deprive private medical institutions and hospitals, after the passing of the Bill, of the right to employ their own passed students and will thus seriously hamper their work. If students of private institutions feel that they cannot get employment in the institutions where they have received their training, it will mean an absolute paralysis of such institutions.

5. *Schedule, Article 3.*—With regard to Article 3 of the Schedule, some provision ought to be introduced enabling students of private medical institutions who have obtained their licenses before the Bill becomes law to get themselves registered. As the provisions regarding registration will apply to all medical practitioners, whether they have obtained their diplomas before or after the Act, it is but just that a large number of medical practitioners, holding qualifications granted by private institutions, should not be suddenly faced by an insuperable difficulty. I therefore suggest that, on these practitioners satisfying the Council that they have gone through a regular course of instruction, they should obtain the right of registration. The Government are recognizing their own qualifications of the past, whatever may have been the standard; and they should extend the same privilege to private institutions, who are all working in the interests of the public and are supplementing Government efforts in this direction.

BUDGET OF THE GOVERNMENT OF BENGAL FOR 1914-15.

PART I.—General Review.

(1) ACCOUNTS FOR 1912-13.

IN the revised estimate for 1912-13 which was laid before the Council on the 26th March 1913, the receipts of the year were taken at Rs. 7,12,53,000 and the charges at Rs. 5,95,55,000, while the anticipated closing balance was Rs. 2,83,23,000. The accounts of 1912-13 as finally closed show that the actual receipts amounted to Rs. 7,16,53,401 and the charges to Rs. 5,69,48,131, and the closing balance was Rs. 3,13,30,270. The receipts were thus better by Rs. 4,00,401, this improvement having occurred chiefly under Land Revenue Adjustments (Rs. 1,32,885) for the cost of forms for the Assam Administration; Excise (Rs. 2,59,045) owing to better settlement of shops and consequent larger advance collections in March 1913, and Miscellaneous (Rs. 1,36,339) on account of larger lapse of deposits. The actual charges were less by Rs. 26,06,869, chiefly under the following heads: Land Revenue (Rs. 1,26,872) owing to smaller expenditure on the improvement of Government Estates; Courts of Law (Rs. 1,65,600) as the expenditure under Civil and Sessions Courts and Mufussal law charges was smaller than anticipated; Police (Rs. 1,55,141) as the grant for police reforms and river police was not fully utilized; Ports and Pilotage (Rs. 1,15,991) due to larger recoveries by the Agent for Government Consignments, which are taken in reduction of expenditure; Education (Rs. 2,92,171) on account of short expenditure from Imperial grants; Miscellaneous (Rs. 1,31,390) owing to the transfer of the lump provision from this head to meet the charges for grain compensation allowance to the respective Departments; Civil Works in charge of the Public Works Department (Rs. 7,78,245) chiefly on on account of lapses of grants for land acquisition for the extension of the Presidency College and School of Tropical Medicine, Calcutta, and lastly under Civil Works in charge of Civil officers (Rs. 7,13,616) owing to non-utilization of the full amount provided for expenditure on sanitation.

(2) REVISED ESTIMATE, 1913-14.

2. The revised estimate for 1913-14, as now passed, on the basis of the actuals of the first nine, and in some cases ten, months of the current year, is compared below with the sanctioned estimate for the year :—

		Sanctioned estimate.	Revised estimate.	Better (+) or worse (—).
		Rs.	Rs.	Rs.
Opening balance	..	2,83,23,000	3,13,30,000	+30,07,000

Closing balance	...	1,93,70,000	3,04,30,000	+1,10,60,000

3. The increase under adjustments is due to the additional assignments from Imperial to Provincial Revenues as well as to other changes shown below :—

Add—		
Recurring Imperial grant to the Church Missionary Society College, Calcutta	6,000	
Recurring Imperial grant for the improvement of female education...	30,000

		1,16,000
		96,000

4. The principal fluctuations under the Revenue heads are noticed briefly below. The improvements aggregate Rs. 27,27,000, and are chiefly under the following heads :—

Stamps—(Rs. 1,00,000), due to larger sale of stamps chiefly in Calcutta and principally on account of high prices ruling in the jute trade.

Excise—(Rs. 13,45,000), due to increase in license fees obtained in the settlement of shops and to higher rates of duty on *ganja* and country spirit which came into effect from April 1913.

Assessed Taxes—(Rs. 4,50,000), owing to a general increase in trade profits.

Forests—(Rs. 2,50,000), due to sale of timber previously extracted in Buxa, to the expansion of fuel trade in Kurseong and to better prices obtained for timber in Buxa and Chittagong.

Registration—(Rs. 70,000), due to the increase in the number of registrations.

Courts of Law—(Rs. 1,02,000), due to larger receipts from magisterial fines and from court-fees realized in cash.

Jails—(Rs. 67,000), due to larger sale of manufactured articles.

Scientific and other Minor Departments—(Rs. 87,000), due to larger sale of quinine.

Miscellaneous—(Rs. 87,000), due chiefly to anticipated lapse of deposits at the close of the year and partly to the sale of land to the Railway at Chittagong and to the realization of larger audit fees on the completion of arrear audits.

Under the following heads, on the other hand, the revenue fell off, the total decrease being Rs. 4,09,000.

Land Revenue—(Rs. 1,49,000), on account of suspensions in the districts of Midnapore and Hooghly owing to floods.

Ports and Pilotage—(Rs. 1,60,000), chiefly under Pilotage receipts owing to decrease in the number of vessels.

Irrigation—Minor Works and Navigation—(Rs. 59,000), due to a falling off in the receipts of the Madaripore Bhil Route, on account of concessions granted to passenger steamers and in the Calcutta and Eastern canals on account of storms and a smaller traffic in rice and jute.

5. On the expenditure side the revised estimate shows a total decrease of Rs. 71,46,000, which is mainly accounted for under the following heads :—

Land Revenue—(Rs. 84,000), due to larger savings in the grant under salaries, and larger recoveries for partition work.

Excise—(Rs. 40,000), due to the lapse of the provision for reorganization of the department.

Police—(Rs. 1,74,000), due to the lump provisions for Police reforms and river police reorganization being only partially utilized.

Education—(Rs. 49,78,000), due to savings in the Imperial grants.

Medical—(Rs. 12,01,000), due to savings in the Imperial grants for Sanitation, and Medical relief and to the provision for the School of Tropical Med cine being only partially spent.

Scientific and other Minor Departments—(Rs. 1,81,000). due to savings in the grants of the Agricultural Department and Botanic gardens and also in the Imperial grant for Agriculture and allied objects.

Miscellaneous—(Rs. 2,37,000), due to the adjustment to the appropriate heads of the grants made by His Excellency, and to the transfer of charges for grain allowance to the different departments by reappropriation from the lump provision made under this head.

Civil works in charge of the Civil Department—(Rs. 1,90,000), due to the transfer of the grant to the Chittagong Port to the head Ports and Pilotage and also to savings in the grant for works of sanitary improvement.

On the other hand there will be a total increase in expenditure of Rs. 15,07,000 of which the most noticeable instances are :—

General Administration—(Rs. 1,52,000), due to larger expenditure on His Excellency's tour, initial expenditure on books and furniture for Council Library and to larger expenditure in the Civil Secretariat and Executive Council.

Courts of Law—(Rs. 3,43.000), due to larger expenditure for counsel's fees in connection with the Barisal conspiracy case and to larger expenditure under both Civil and Criminal Courts.

Jails—(Rs. 1,97,000), due to larger expenditure under rations and for purchase of raw materials.

Ports and Pilotage—(Rs. 62,000), owing to the adjustment of the grant to the Chittagong Port under this head.

Superannuation—(Rs. 87,000), due to the special charges for commuted value of pensions.

Irrigation—Major Works—(Rs. 33.000), due to cost of silt clearance in Range II and Gewankhally supply channel of the Hijili Tidal Canal.

Irrigation—Minor Works and Navigation—(Rs. 64,000), due to expenditure for flood damage repairs.

Civil Works in charge of the Public Works Department—(Rs. 3,70,000), due to additional grant for land acquisition charges for the school of Tropical medicine and extension of the Presidency College.

6. The net result of these changes is that the closing balance for 1913-14, inclu ling the sum of 20 lakhs held in trust for the Calcutta Improvement Scheme, which was estimated in March last at Rs. 1,93,70,000 is now estimated to amount to Rs. 3,04,30,000.

(3) BUDGET ESTIMATE, 1914-15.

7. The opening balance of 1914-15 is the closing balance of 1913-14 and is, therefore, Rs. 3,04,30,000.

8. The estimates for the year, as provisionally approved by the Government of India, adopt Rs. 6,29,95,000 as receipts and Rs. 7,35,93,000 as expenditure and a closing balance of Rs. 1,98,32,000. Out of the special grant of 50 lakhs for the Calcutta Improvement Scheme, which has appeared in the accounts since 1903-04, thirty lakhs have already been paid to the Improvement Trust and ten lakhs will be paid in 1914-15. Of the estimated closing balance the following are earmarked :—

Total ...	1,69,36,000

This leaves a free balance of (Rs. 1,98,32,000—1,69,36,000=) Rs. 28,96,000 which is available for new expenditure in the near future and is not too large a sum to keep in reserve.

9. The total estimated charges for 1914-15 amount to Rs. 7,35,93,000 which is in excess of the income by Rs. 1,05,98,000, owing mainly to the following provisions :—

15. *Stamps.*—The Budget estimate of the total revenue from Stamps for 1913-14 was passed by the Government of India for Rs. 2,14,00,000. The actuals in 1912-13 amounted to Rs. 2,07,43,853, and those of the first ten months of 1913-14 exclusive of receipts under the Calcutta Improvement Act, exceeded the figures of the corresponding period of the preceding year by Rs. 8,35,000. In view of these figures, and allowing for the adjustment of receipts from the sale of unified stamps between the Postal and the Stamp Departments, the revised estimate for 1913-14 has been passed for Rs. 2,16,00,000. Allowing for a progressive increase of 7 lakhs the estimate for 1914-15 has been placed at Rs. 2,23,00,000. The Provincial share is one-half, and amounts to Rs. 1,08,00,000 for 1913-14, and Rs. 1,11,50,000 for 1914-15.

16. *Excise.*—The total collections under this head in 1912-13 amounted to Rs. 1,37,59,045 and the estimate for 1913-14 was passed by the Government of India for Rs. 1,38,55,000. The actuals of the first ten months of 1913-14 exceeded those of the corresponding period of last year by Rs. 13,83,000 and the revised estimate for 1913-14 has been passed for

Rs. 1,52,00,000. The increase is chiefly due to higher license fees obtained in the settlement of shops in February and March 1913 and also partly to the increase in the rate of duty on country spirits. There will be no settlement in Calcutta this year, and it is expected that the raising of duty will diminish the receipts from the consumption of liquor: as steps are being taken to check the consumption of opium and charas, it is thought inadvisable to provide for an increase of more than 6 lakhs in the estimate for next year. The budget estimate for 1914-15 has accordingly been placed at Rs. 1,58,00,000.

17. *Provincial Rates.*—The collections from Public Works Cess are now being surrendered to District Boards. Under General Rates for the management of Private Estates, the estimate of receipts for 1914-15 is Rs. 1,18,000 against Rs. 1,23,000 the revised estimate for 1913-14 and Rs. 1,06,144, the actuals of 1912-13.

18. *Assessed Taxes.*—The receipts from Income-tax for 1913-14 were estimated at Rs. 56,00,000. The actual collections in 1912-13 amounted to Rs. 55,51,652, while those in the first ten months of 1913-14 exceeded the figures of the corresponding period of last year by Rs. 9,32,000, and the revised estimate for 1913-14 has been placed at Rs. 65,00,000. The large increase in ten months was due to some of the Coal and Jute Companies and most of the Banks having shown large increases in their profits. In view of the unusual increase in 1913-14 it is not expected that the receipts in 1914-15 will be as high as in 1913-14 and the estimate has been placed at Rs. 61,00,000. The Provincial share is one-half and amounts to Rs. 30,50,000.

19. *Forests.*—The budget estimate for 1913-14 was Rs. 14,00,000 against Rs. 16,00,601, the actuals of 1912-13. The actual collections in the first ten months of 1913-14 show an increase of Rs. 1,28,000. The revised estimate for 1913-14 has been placed at Rs. 16,50,000. The increase over the budget is due to sale of timber previously extracted in Buxa where departmental extraction was given up and to expansion of the fuel trade in Kurseong and to the receipt of better sale prices than anticipated for timber in Buxa and Chittagong. The estimate for 1914-15 has been passed for Rs. 16,00,000.

20. *Registration.*—The receipts under this head for 1913-14 were estimated at Rs. 19,00,000. The actuals in 1912-13 amounted to Rs. 18,23,161, while the collections in the first nine months of 1913-14 show an increase of Rs. 1,24,000 as compared with those of the corresponding period of the preceding year. In view of these figures the revised estimate for 1913-14 has been placed at Rs. 19,70,000 and allowing for a normal increase of Rs. 80,000 the estimate for 1914-15 has been passed for Rs. 20,50,000.

21. *Interest.*—The estimate of loans, as submitted to the Government of India, provides for a return in the way of interest during 1914-15 of Rs. 4,87,000 as shown below :—

	Rs.
Interest on advances to cultivators, etc.	62,000
" " " Co-operative Credit Societies	3,000
" " drainage and embankment advances ...	14,000
" " loans to landholders	1,74,000
" " " to municipalities and district Boards, etc.	2,20,000
Miscellaneous	14,000
Total ...	4,87,000

22. *Law and Justice—Courts of Law.*—The total collections under this head amounted to Rs. 8,14,901 and the estimate for 1913-14 was passed by the Government of India for Rs. 7,65,000. The actuals of the first nine months of 1913-14 show an increase of Rs. 40,000 over those of the corresponding period of the previous year and the revised estimate for 1913-14 has been passed for Rs. 8,67,000. The increase is chiefly due to unusually large receipts from Magisterial fines. The estimate for 1914-15 is Rs. 8,95,000.

23. *Jails.*—The actuals in 1912-13 amounted to Rs. 7,03,353 while the receipts in the first nine months of 1913-14 show an increase of Rs. 31,000

over those of the corresponding period of last year chiefly for larger cash sales of manufactured articles. The budget estimate for 1913-14 has accordingly been raised from Rs. 6,59,000 to Rs. 7,26,000 in the revised estimate and the estimate for 1914-15 has been passed for Rs. 7,23,000.

24. *Police.*—The budget estimate for 1913-14 was Rs. 1,62,000. This has been raised to Rs. 1,65,000 in the revised estimate with reference to the actuals of the first nine months of the current year. The estimate for 1914-15 is Rs. 1,77,000.

25. *Ports and Pilotage.*—The budget estimate for 1913-14 was Rs. 18,00,000. This has been reduced to Rs. 16,40,000 in the revised estimate with reference to the actuals of the first nine months of the year which show a decrease of Rs. 75,000 as compared with the figures for the corresponding period of last year. The decrease is under pilotage receipts and is due to a reduction in the number of vessels entering and leaving the Calcutta port, and specially to a certain number of vessels entering and leaving the port in ballast, thus affecting the earnings, as such vessels are of a draught much less than that of vessels clearing with cargo. In view of the increase in the Pilotage receipts in the past, the estimate for 1914-15 has been passed for Rs. 17,16,000 against Rs. 16,95,556, the actuals of 1911-12 and Rs. 17,52,191 the actuals of 1912-13.

26. *Education.*—The Budget estimate for 1913-14 was Rs. 7,51,000. This has been raised to Rs. 8,15,000 in the revised estimates, with reference to the actuals of the first nine months of the year. The improvement is mainly due to increases in fees from Government Colleges and Schools—General. The estimate for 1914-15 is Rs. 8,62,000.

27. *Medical.*—The Budget estimate for 1913-14 was Rs. 3,76,000 against Rs. 4,26,733, the actuals of 1912-13. The actuals of 1912-13 include Rs. 50,000 credited as a special contribution from the Indian Research Fund Association, for carrying out experiments in jungle-clearing in suitable localities. The actual collections in the current year, however, show increases chiefly under Medical College fees and under medicine sold by Civil Surgeons and the revised estimate for 1913-14 has been passed for Rs. 4,00,000. The estimate for 1914-15 is Rs. 3,97,000.

28. *Scientific and other Minor Departments.*—The estimate for 1913-14 was Rs. 2,26,000 against Rs. 2,17,931 the actuals of 1912-13. The collections from the sale of quinine and cinchona in the first eight months amounted to Rs. 1,07,000 against Rs. 21,000 in the corresponding period of the previous year. The revised estimate under this sub-head has been raised from Rs. 1,07,000 to Rs. 2,00,000 and the total estimate under this head has been raised from Rs. 2,26,000 to Rs. 3,13,000. The estimate for 1914-15 has been placed at Rs. 2,72,000 as it is not expected that the demand for quinine in that year will be as high as in 1913-14.

29. *Receipts in aid of superannuation.*—The estimate for 1913-14 was Rs. 42,000, but in the revised estimate this has been reduced to Rs. 38,000 in view of the actual collections of the first nine months of the year. The estimate for 1914-15 has been placed at Rs. 39,000.

30. *Stationery and Printing.*—The estimate for 1913-14 was Rs. 1,30,000 against Rs. 1,20,103 the actuals of 1912-13. The actuals of eight months of 1913-14, however, show an increase of Rs. 6,000 over those of the corresponding period of last year and the revised estimate for 1913-14 has been placed at Rs. 1,25,000. The estimate for 1914-15 is Rs. 1,20,000.

31. *Miscellaneous.*—The estimate under this head for 1913-14 was Rs. 5,91,000 against Rs. 7,72,339 the actuals of 1912-13 which included very heavy receipts (Rs. 6,38,026) from unclaimed deposits. These deposits, which are likely to lapse at the close of the year, may amount to Rs. 5,35,000, and the total revised estimate under this head has been placed at Rs. 6,78,000 as the sale-proceeds of tents from Government House stock at Dacca realized Rs. 5,634 and the sale of land to the Railway at Chittagong brought in Rs. 11,540. The estimate for 1914-15 has been passed for Rs. 5,92,000 as the estimate under unclaimed deposits has been placed at Rs. 4,80,000.

32. *Irrigation—Major Works (Direct Receipts).*—The estimate for 1913-14 was Rs. 2,80,000 against Rs. 2,73,918 the actuals of 1912-13. The actual collections in the first eight months of 1913-14 show a decrease of

Rs. 8,000, chiefly owing to the silting up of the Hijili Tidal Canal, which reduced the navigation receipts. The water-rates in the Midnapore Canal are also expected to fall short owing to reduction in the irrigated area and the revised estimate has been placed at Rs. 2,50,000. An increase in the irrigated area in the Midnapore Canal is expected in 1914-15 and the estimate has been passed for Rs. 2,67,000. The provincial share is one-half and amounts to Rs. 1,25,000 and Rs. 1,33,000 in 1913-14 and 1914-15, respectively.

33. *Irrigation—Minor Works and Navigation in charge of the Public Works Department.*—The estimate for 1913-14 was Rs. 6,85,000 against Rs. 6,10,210 the actuals of 1912-13. The actual collections in the first nine months of 1913-14 show a decrease of Rs. 71,000 as compared with the figures for the corresponding period of 1912-13 chiefly in the Madaripore Bheel route on account of concessions granted to steamer companies and in the Calcutta and Eastern Canals owing to the deficiency in the rice and jute traffic. The revised estimate has been reduced to Rs. 5,66,000. Receipts are expected on account of the levy of tolls on the Magrahat drainage from 1914-15 and the estimate has been passed for Rs. 6,10,000. The provincial share is one-half and amounts to Rs. 2,83,000 for 1913-14 and Rs. 3,05,000 for 1914-15.

34. *Civil Works in charge of the Public Works Department.*—The budget estimate for 1913-14 was Rs. 3,69,000 against Rs. 3,85,036 the actuals of 1912-13. The actual receipts in the first nine months of 1913-14 show an increase of Rs. 35,000 over those of the corresponding period of last year and the revised estimate for 1913-14 has been placed at Rs. 4,14,000. The increase is due to sale-proceeds of certain buildings. Excluding the special receipts in 1913-14 the estimate for 1914-15 has been passed for Rs 3,85,000 the actuals of 1912-13.

EXPENDITURE.

35. *Refunds and Drawbacks.*—The total Provincial expenditure in 1914-15 is estimated at Rs. 1,35,000, against Rs. 1,41,000, the Budget estimate for 1913-14, and Rs. 1,44,035, the actuals of 1912-13. The estimates under this head are based, as usual, on the average actuals of the previous three years, excluding special payments. The actuals of 1910-11 included a special payment of Rs. 22,500 and those of 1911-12 a payment of Rs. 6,500 under Land Revenue. The actuals of 1912-13 also included special payments of Rs. 6,000 and Rs. 8,000 under Stamps. The revised estimate for the current year has been placed at Rs. 1,38,000.

36. *Assignments and Compensations.*—The estimate for 1913-14 was Rs. 33,000. The revised estimate has however been raised to Rs. 45,000 with reference to the actuals of the first nine months, against Rs. 50,905, the actuals of 1912-13. The estimate for 1914-15 is Rs. 43,000. The variations are due to payment of fluctuating *malikana*.

37. *Land Revenue.*—The total provincial expenditure for 1914-15 is estimated at Rs. 35,33,000, against Rs. 32,64,000, the revised, and Rs. 33,48,000, the Budget estimate, for 1913-14 as shown below :—

	1913-14.		1914-15.

(3) Management of Government Estates ...	4,72,000	4,41,000	5,68,000
(4) Survey and Settlement ...	1,82,000	1,75,000	2,13,000

(6) Charges on account of fishery collection ...	1,000	.....	.....
Total ...	33,48,000	32,64,000	35,33,000

Under (1) provision has been made for an additional District Magistrate of the 24-Parganas and for the consequent additional Joint-Magistrate, for revision of the Kanungo establishment, for the purchase of a launch for the District Officer, Faridpur, for the purchase of iron safes for district and sub-divisional treasuries, larger provision for diet and travelling allowance to witnesses, law charges, and remuneration to copyists. The estimate under (3) includes special additional grants of Rs. 50,000 for the improvement of Government Estates and Rs. 67,000 for the reclamation of Sunderbans in the district of Bakarganj. The estimate under (4) amounts to Rs. 2,13,000 and includes Rs. 43,000 for the new survey school at Comilla. The variations under (5) are due to the debit of cost of the Director of Land Records to the different Imperial settlement operations. The estimate for 1914-15 includes Rs. 5,000 for the reorganization of his office.

38. *Stamps.*—The sanctioned estimate for 1913-14 was Rs. 7,25,000 which has been raised to Rs. 7,27,000 in the revised owing to the payment of heavier charges for the sale of general stamps against savings in the grant for stamp paper. The budget for 1914-15 is Rs. 7,52,000 and follows the revised, but provides for larger issue of stamp paper from Central Stores.

39. *Excise.*—The total expenditure for 1913-14 was originally estimated at Rs. 6,69,000, but in the revised estimate this has been reduced to Rs. 6,29,000 owing to the lapse of the lump provision of Rs. 50,000 for the reorganization of the department. The budget for 1914-15 is Rs. 8,77,000 and includes Rs. 1,50,000 for the reorganization, Rs. 50,000 for the construction of boats and launches and Rs. 50,000 for the construction of quarters.

40. *Provincial Rates.*—The cost of collections of the cesses and the valuation and revaluation charges will in the first instance be incurred by the District Officers but ultimately recovered from District Boards while transferring the cesses to those bodies so that nothing will fall on the general revenues.

41. *Assessed Taxes.*—The budget grant for 1913-14 is Rs. 1,57,000 but Rs. 1,51,000 has been adopted as the estimate for 1914-15. The decrease is due to the amalgamation of the establishment of the Board of Revenue with the Civil Secretariat.

42. *Forests.*—The sanctioned estimate for 1913-14 was Rs 6,76,000 but in the revised estimate this has been reduced to Rs. 6,40,000 with reference to the actuals of the first nine months of the year. The decrease is due to the full complement of officers and executive establishment not being employed. The budget for 1914-15 amounts to Rs. 7,27,000 and includes the following items besides small items mentioned in paragraph 10 above :—

	Rs.
Reconstruction of Divisional officer's Bungalow at Kalimpong	8,000
Purchase of two elephants for the Chittagong Hill Tracts Division	6,000
Construction of four accommodation boats and two water boats for the Sunderbans	11,600
Provision for new boilers for the launches *Hawk* and *Helen Grey* of the Sunderbans Division	10,500
Reconstruction of Divisional officer's bungalow at Buxa Duars	8,000

43. *Registration.*—The estimate for 1913-14 is Rs. 11,16,000 but in the revised this has been reduced to Rs. 11,01,000 owing to the delay in the reorganization of the office establishment of the District Sub-Registrars. The budget for 1914-15 is Rs. 11,99,000 and includes the following items :—

	Rs.
Registrar of Joint Stock Companies and his office	21,858
Lump provision for increasing the leave reserve	10,000
Lump provision for increase of salary of District Sub-Registrars	8,100

	Rs.
Lump provision for revision of the cadre of Sub-Registrars	4,500
Provision for revision of the ministerial establishments in the head-quarters offices	45,610
Increased grant for record racks ...	2,000
Grant for the purchase of type-writers ...	3,000
Provision for cost of remitting salaries, etc., in Western Bengal Districts	3,000

44. *Interest on Ordinary Debt.*—This is interest payable from the Provincial revenues to the Imperial Government on the amount advanced by the latter to the Provincial Government for loans to cultivators, under the Agriculturists' Loans and Land Improvements Loans Acts, for advances to Co-operative Societies, for advances on drainage and embankment schemes, for loans to notabilities and to municipalities and other public corporations (excluding Presidency Corporations).

45. *General Administration.*—The estimate for 1913-14 was Rs. 23,02,000, but in the revised estimate this has been raised to Rs. 24,54,000. The increase is chiefly for larger expenditure on His Excellency's tour, for deputation of several special officers in the Civil Secretariat, for the purchase of books and furniture for the Council Library and Legislative Department and larger expenditure on Tour charges and contingencies of the members of the Executive Council. The estimate for 1914-15 amounts to Rs. 23,53,000 and includes Rs. 19,627 for the maintenance and improvements of the railway saloon carriages, larger grant for allowances and contingencies of the offices of the Private Secretary to Governor and the Military Secretary to Governor according to requirements, Rs. 5,000 for allowances to reporters and Rs. 5,000 for the purchase of books for the Council Library.

46. *Law and Justice—Courts of Law.*—The budget estimate for 1913-14 was Rs. 96,10,000, but the revised estimate has been raised to Rs. 99,53,000 with reference to the actual charges of the first nine months of the year, which were chiefly enhanced by the expenditure on law charges and fees to counsel in connection with the trial of Damodar Deara suit in Burdwan and the Barisal conspiracy case and debit of grain compensation charges by transfer from 32—Miscellaneous. The estimate for 1914-15 is Rs. 99,53,000 and includes the following provisions :—

	Rs.
An additional Judge for High Court ...	48,000
Establishment for the additional Judge, High Court	5,148
New Inspector of Judicial offices	18,000

Establishment of a court and detention house for juvenile offenders	17,400

47. *Jails.*—The estimate for 1913-14 is Rs. 20,79,000, but in the revised estimate this has been raised to Rs. 22,76,000 with reference to the actuals of the first nine months of the year. The increase is mainly due to larger dieting charges and partly also to larger purchase of raw materials in the Presidency Jail at Alipore. The estimate for 1914-15 is Rs. 20,76,000. It

includes smaller provision for purchase of raw materials, but provides Rs. 40,000 for the revision of warders' service and Rs. 10,000 for new machinery for the Dacca Central Jail.

48. *Police.*—The following table shows the figures under this head :—

In view of the actuals of the first nine months of 1913-14, the revised estimate has been placed at Rs. 94,08,000. 49. *Ports and Pilotage.*—The estimate for 1913-14 was Rs. 13,74,000 but in the revised estimate this has been raised to Rs. 14,36,000 for the adjustment under this head of the grant of Rs. 1,50,000 made to the Chittagong Port which was estimated under Civil Works in charge of Civil officers. Against this addition a large reduction in expenditure is expected in the grant under Pilotage establishment owing to the decline in pilotage receipts. The estimate for 1914-15 amounts to Rs. 15,39,000 and includes larger grant for pilotage establishment due to anticipated trade activity as well as the payment of Rs. 1,50.000 to the Chittagong Port Fund.

The estimate for 1913-14 was Rs. 1,34,88,000 but in the revised estimate this has been reduced to Rs. 85,10,000 with reference to the actuals of the first nine months of the year. The decrease is chiefly due to partial utilization of the Imperial grants and the stoppage of the equilibrium grant on the surrender of the Public Works Cess to the District Boards and to the transfer of the provision of Rs. 50,000 for the Comilla Survey School to the head 3—Land Revenue. The budget for 1914-15 includes the following items :—

	Rs.
Assistant Director of Public Instruction for Muhammadan Education	26,720
Appointment of a wholetime Professor of Geology	4,200

	Rs.
Provision for the creation of 3 additional Provincial Educational Service appointments ...	10,200

Personal and other allowances to heads of colleges	10,000

51. *Medical.*—The budget grant for 1913-14 was Rs. 41,01,000. This has been reduced to Rs. 29,00,000 in the revised estimate with reference to the actuals of the first nine months of the year. The decrease is chiefly due to savings to the extent of 10 lakhs in the grant for expenditure on sanitation, Rs. 80,000 in the lump grant for medical relief, Rs. 50,000 for jungle clearing, one lakh for the School of Tropical Medicine and to non-utilization of the provision for the purchase of quinine by the Sanitary Commissioner for sale in the Eastern Bengal districts. The estimate for 1914-15 is Rs. 47,81,000 and includes the following items :—

	Rs.
Provision for the revision of Civil Surgeons' offices	2,000
Teaching allowances to the three Resident Surgeons and Physicians, Medical College Hospital	7,200

52. *Political.*—The estimate for 1914-15 is Rs. 29,000, which is also the budget grant for 1913-14, against Rs. 30,000, the revised estimate for the current year. The increase in the current year is due to larger payments for Durbar presents owing to the installation of the new Maharaja of Cooch Bihar.

53. *Scientific and other Minor Departments.*—The total charges under this head for 1913-14 were originally estimated at Rs. 17,13,000, but in the revised estimate this has been reduced to Rs. 15,32,000. The decrease is chiefly due to savings in expenditure from the Imperial grant for agriculture. Rupees 30,000 was transferred to the Forest Department and the balance was not fully spent. Savings were also effected in the grants for the Agricultural Department, Botanic Gardens and Fishery Department. The estimate for 1914-15 is Rs. 17,30,000 and includes the following provisions :—

	Rs.
For non-recurring improvements of the Agricultural Department	1,00,000
Regrant of the unspent balance of the Imperial grant for Agricultural Department	52,000
Regrant of the unspent balance of the Imperial grant for Cinchona Department	29,975

Provision for registration of steamer-borne trade at Bhairab Bazar in Mymensingh	1,200
Provision for contribution to the Eastern Bengal State Railway for the construction of a bungalow for the Assistant Superintendent of Emigration at Goalundo	3,000

54. *Superannuation.*—The estimate for 1913-14 is Rs. 30,22,000, but in the revised this has been raised to Rs. 31,09,000, owing chiefly to the provision for commuted value of pensions to the extent of Rs. 75,000. The budget

for 1914-15 amounts to Rs. 32,31,000 as the charges under this head tend to rise year after year owing to increase in the number of pensioners.

55. *Stationery and Printing.*—The following table shows the charges under this head :—

HEADS.	Actuals, 1912-13.	Budget estimate, 1913-14.	Revised estimate, 1913-14.	Budget estimate, 1914-15.

Total ...	13,34,429	13,60,000	15,39,000	14,44,000

The increased provision under Forms Department is for the payment of allowances to assistants of that office on the introduction of Jail hours on its transfer to the jail. The increase under Government presses is due to larger provision for plant, furniture and contingencies and a lump provision for additional establishment required for the removal of a portion of the press from the Writers' Buildings to Koila Ghât Street.

56. *Miscellaneous.*—The Budget estimate for 1913-14 was Rs. 9,53,000, but n the revised estimate this has been reduced to Rs. 7,16,000. The reduction is chiefly due to the adjustment, under appropriate heads, of the expenditure on grain compensation allowance and the charges sanctioned by His Excellency from the provision for petty grants, and to the reappropriation of the reserve provision of Rs. 1,50,000, in order to meet expenditure under other heads. Against these transfers additional charges were incurred for the District Administration and the Calcutta Port Facilities Committee and the expenditure on gratuitous relief in flooded areas, for which there were no provisions in the budget. Special payments were also made to the Prisoners' Aid Society for acquisition of land, to the "Refuge" for regrant of the undrawn grant for 1912-13, to the Calcutta Orphanage and the Anath Bhandar for the purchase of buildings. The estimate for 1914-15 is Rs. 10,81,000, and includes a lump provision of Rs. 4,00,000 for the payment of grain compensation allowance for all departments : Rs. 1,00,000 to be placed at the disposal of His Excellency for petty grants, Rs. 1,50,000 for general reserve for unforeseen requirements, Rs. 20,000 for District Administration Committee, Rs. 3,000 for the Port Facilities Committee, Rs. 50,000 for gratuitous relief in the flooded area and Rs. 26,000 being the amount recently sanctioned by the Government of India on account of recoveries from local bodies which will be remitted, it being assumed for estimate purposes that the increase will result in an increase of expenditure, though in most cases there will actually be a reduction in revenue. A corresponding assignment has been given from the Imperial revenues for the purpose.

57. *Irrigation—Major Works (Working Expenses).*—The estimate for 1913-14 amounting to Rs. 2,40,000 has been raised to Rs. 3,06,000 in the revised estimate for the inclusion of the charges for silt-clearance, Range II and Gewankhally supply channel of the Hijili Tidal Canal. The estimate for 1914-15 has been passed for Rs. 2,96,000 and includes Rs. 45,000 for silt-clearance in the Main canal and supply channel of the Hijili Tidal Canal and also to some special repairs to the distributaries of the Midnapore Canal. The provincial share is one-half and amounts to Rs. 1,53,000 for 1913-14 and Rs. 1,48,000 for 1914-15.

58. *Irrigation—Minor Works and Navigation in charge of the Public Works Department.*—The actual charges in 1912-13 amounted to Rs. 15,36,307 and the estimate for 1913-14 was Rs. 18,66,000. Additional grants have been sanctioned during the year for repairs to embankments damaged by floods, and silt-clearance of the Protapkhally khal in the district of Midnapore and the revised estimate for 1913-14 has been passed for Rs. 19,94,000. The estimate for 1914-15 amounts to Rs. 22,38,000 and includes the following special provisions :—

	Rs.

The Provincial share is one-half and amounts to Rs. 9,97,000 for 1913-14 and Rs. 11,19,000 for 1914-15.

Sanction has been accorded to the addition of six posts of Subordinate Judges and the regrading of the existing staff of Munsiffs. The present allotted number of Sub-Judges in Bengal is 6 in the first grade, 12 in the second grade and 24 in the third grade. The following additions to the cadre have been sanctioned.

The total cost involved in the reorganization of the Provincial Judicial Service and the regrading of Munsiffs is Rs. 52,800+15,600=Rs. 68,400.

In the Budget for 1913-14 a provision of Rs. 50,000 was made for the regrading of Munsiffs. The sanction of the Secretary of State has just been received.

228B.	Publication of false or misleading report of judicial proceeding or of imputation on parties to such proceeding calculated to cause prejudice in the public mind.	Ditto	Ditto.	Ditto.	Ditto.	Ditto.	Ditto.

STATEMENT OF OBJECTS AND REASONS.

WHEN the Penal Code became law in 1860 conditions in India were such that its framers were in a position to disregard that class of contempt which is known to English law as scandalizing the Courts. But subsequent developments have demonstrated the necessity of affording greater protection to the Courts against attempts to lower their prestige, and of checking the practice, which has manifested itself to a serious extent in recent years, of commenting on cases pending before the Courts in a manner which constitutes a serious menace to the dispassionate administration of public justice.

Section 228, Indian Penal Code, renders punishable an intentional insult or interruption to a public servant sitting in a judicial proceeding, but does not provide for the punishment of contempts of the authority of judicial officers not committed in their presence, or of improper comments on their proceedings in cases under trial. A recent decision of the Calcutta High Court, *In* re *the King-Emperor* versus *Girindra Mohan Das and others*, read with the decision of the Madras High Court, *In* re *K. Venkata Rao* (XXI, Madras, Law Journal, 832), has raised doubts how far a Chartered High Court can protect subordinate Courts in respect of such contempts, and it is also at least questionable whether the unrestricted jurisdiction of any Court to punish contempts summarily is the best way of combating the evil. The trend of modern opinion is rather in the direction of dealing with contempts as a substantive offence and not as a matter to be dealt with summarily, and this is more particularly desirable where the contempt is not committed in open Court.

The draft Bill accordingly proposes to make punishable, by amendment of the Indian Penal Code,—

(1) the contempt of the authority of Courts or persons empowered by law to record evidence on oath ; and

(2) the publication of false or misleading reports of pending cases, or of objectionable comments upon them.

At the same time, in order to safeguard the proper exercise of these powers, an amendment of the Code of Criminal Procedure is provided for, so that prosecutions for the above offences shall be undertaken only upon complaint made by order of, or under authority from, the Governor General in Council, the Local Government, or some officer empowered by the Governor General in this behalf; and that such cases shall be triable only by a Presidency Magistrate or a Magistrate of the first class.

Certain exceptions and explanations have also been inserted in the draft Bill, which are designed to protect *bonâ fide* comments or reports.

2. We have amended the definition of 'illicit intercourse' in clause 3, so as to make it clear that intercourse between persons bound by any union or tie which is recognised by the personal law of the community to which they belong, is not illicit intercourse within the meaning of section 372 and section 373 of the Indian Penal Code. It appears to us that the clause as re-drawn gives effect to the intention of the Bill in a more definite manner than the clause contained in the Bill committed to us.

3. In deference to some opinions we have received we have modified the language of the first paragraph of clause 3 so as to provide that a presumption similar to that which is proposed in the Bill as regards prostitutes shall apply to cases in which minors are disposed of to brothel-keepers. This change has necessitated a consequential amendment in clause 4.

4. The provisions of the Bill dealing with the question of the custody of minors have been discussed by us at great length, and have received our most careful attention. We have considered all possible aspects of the case, and have endeavoured, as far as possible, to meet the views of individual members of the Committee.

5. The main changes which we have made are summarised below :

In the first place, we have amended the Bill so as to admit of orders under the provisions in question being made by any first class Magistrate specially empowered in this behalf by the Local Government. We think such an extension of jurisdiction will be convenient and free from danger. We have, on the other hand, restricted the manner in which proceedings can be instituted, by providing that no Magistrate shall take action under these provisions, save on information received from some person other than a Police-officer.

6. It has been brought to our notice that the fact that a girl is living in a house used for prostitution, is not, having regard to conditions in India, a circumstance which would neces-

sarily justify the presumption raised by the Engish law in such a case; we have therefore amended sub-clause (*b*) of the proposed section 552A (1), so as to elucidate the fact that only girls who are in danger of prostitution are intended to come within the scope of the sub-clause, and with the same object, we have deleted the words "or seduction" from the same sub-clause.

7. We were much pressed to restrict the power of the Magistrate in selecting a custodian to the appointment of a person of the same religion as the minor. After much deliberation, we have arrived at the decision which is embodied in the Bill as amended, namely, that where the religion of the minor is known or can be ascertained, she shall not be made over to any custody other than that of a co-religionist. We have also added a clause which provides that, in determining the person to whom custody of a minor should be committed, preference shall be given to a relative. There are in our opinion obvious reasons for giving preference to a relative in such cases.

8. We have inserted a clause authorising the Magistrate to accept security from the guardian of a minor in lieu of making an order committing such minor to other custody. We think that there may be cases in which the interests of the minor will be sufficiently safeguarded if such security is furnished.

9. The Bill as introduced empowered Magistrates to commit minors to suitable custody until they attained the age of majority. It was represented to us that, regard being had to the conditions of this country, no useful purpose would be served by permitting the custody to continue for so extended a period. We have therefore modified the Bill so as to provide that orders under these provisions shall only have effect until the minor attains the age of sixteen, or for such shorter period as the Magistrate thinks fit. We observe that the English law in a somewhat analogous case prescribes the same age.

10. As an additional safeguard, we have also provided for an appeal against any order committing a minor to custody, and for the guidance of Magistrates taking proceedings under these provisions of the law, we have incorporated in the Bill directions which are based on the provisions of the Guardians and Wards Act, 1890. Finally, we have inserted a clause which renders the custodian of a minor who fails to observe the conditions annexed to an order of custody liable to punishment in the Criminal Courts.

11. We have deleted that portion of clause 6 of the Bill which provided for the realisation of the cost of maintenance of a minor from the parent or person liable to support her, as it has been suggested to us that such a provision might, in some cases, give rise to complications and hardship.

12. We have inserted a new clause definitely to provide for the procedure to be adopted by Magistrates taking action under these clauses, and the Bill as amended lays down that no order committing a minor to custody shall be made, until those interested in the minor have had an opportunity of showing cause and adducing evidence to prove that an order is unnecessary.

13. We have made provision for a case in which the minor dealt with under these provisions is removed beyond the jurisdiction of the Magistrate making the original order.

14. We have expanded the provisions of the Bill as submitted to us, to provide more definitely for the saving of the powers of Civil Courts, and have also made provision for a like saving in the case of Courts of Wards.

The remaining amendments are not of sufficient importance to make it necessary for us to deal with them in detail in this Report.

MINUTE OF DISSENT BY THE HON'BLE MR. C. VIJIARAGHAVACHARIAR.

THE amendments which have been made in Select Committee have removed some of the defects to which I drew attention when this Bill was referred to Select Committee, but it is still open to serious objections in many particulars. The more important of these provisions are noted below :—

2. I consider that any measure intended to secure the protection of minor girls against immoral contamination will not adequately effect the desired purpose unless intercourse with unmarried girls under the age of, at least, 14 years is made a penal offence. In view of the existing conditions of society in India I recognise that it is inexpedient to attempt to modify the Bill in this respect as regards married young women, but the case of unmarried girls stands on a different footing. In my opinion intercourse with such girls between the ages of 12 and 14 should be made a criminal offence, irrespective of whether the girl consents to such intercourse or not. I do not think that the punishment of those guilty of such intercourse should be as severe as that provided by section 376 of the Indian Penal Code for rape, but they should certainly be liable to the penalty provided in section 354 of the Indian Penal Code for indecent assault, *i.e.*, 2 years' rigorous imprisonment, and for these reasons I think that a clause of this character, which would, to some extent follow the English Criminal Law Amendment Act of 1885, should be added to the Bill.

It is also, in my opinion, necessary to add to the provisions of sections 372 and 373 of the Indian Penal Code a clause penalising those who have intercourse with a girl knowing that she has been sold or otherwise disposed of for illicit intercourse or for any purpose specified in those sections. If such a clause is not added, the law remains incomplete and many of the persons who should be liable to punishment escape this liability and no considerations of policy in my view arise to justify the immunity of such persons.

3. In regard to the new provisions which will be inserted by the Bill in the Code of Criminal Procedure, I think in the first place that the scope of those provisions which may shortly be termed the rescue provisions, should be restricted to unmarried girls, as in my opinion, any attempt to extend these provisions to married girls will cause grave discontent and be open to serious objection. It must be remembered that the one object of the measure is to minimise, as far as law can do it, the risks of prostitution to which tender girls may be exposed. But when girls are married it is clear that they are not intended for a life of shame and the State may well leave them to the care of their relations. I have no objection to securing power of interference in the extreme and rare case of a husband going through the form of marriage with minor girls and making money of them.

4. I also think that the custodian appointed under this provision should only have such authority as may enable him to give effect to the intentions of the Bill, *viz.*, to educate the girl and to protect her from contamination. It is, in my opinion, very dangerous to give him the extensive powers provided by the Act, in particular, I would restrict the powers of such custodian in regard to marriage as the rights of the natural guardian in this respect should be retained, even if it has been found necessary to remove her from the custody of such guardian temporarily. The hardship and injustice would be the more obvious where such guardian has not been party to the misconduct of the girl leading to her 'contamination'

5. As to details, I am of opinion that in some respects the Bill as amended goes too far and in other respects it restricts the power of a magistrate unnecessarily. In the first place I do not think that it is necessary to authorise a magistrate to make an order under new section 552B unless there is reason to believe that the prostitution of the girl will be encouraged by the influence or through the agency of a prostitute or brothel-keeper, and I consider that the language of clause (*b*) of section 552A is unnecessarily wide and dangerous. I further think that the proviso to clause (*a*) should not be limited to the case of a mother, but, in view of conditions in India, should be extended to other near relatives such as a grandmother or a sister, and further that the same proviso should also apply to minors who come within the scope of clause (*b*) of the same section.

6. On the other hand I incline to the view that the limitations providing that no minor shall be made over to the custody of any person not of her own religion is unnecessarily narrow as there may well be institutions of an unsectarian character to which the minor might safely be made over if sufficient safeguards were provided to secure that she were not converted to another faith.

7. I am unable to accept the view that magistrates in annexing the conditions to an order making over the minor to custody should be allowed to do so only with the consent of the proposed custodian. I think, therefore, that the words "with the consent of the person to whom the custody of the minor is committed" should be deleted in sub-section (3) of the proposed section 552B and that a similar modification should be made in clause (*b*) of section 552 B (4).

8. I also consider that it is very necessary that the Local Governments should be given power to make rules regulating and defining the power of the custodian appointed under these provisions of the Bill.

It is to be observed that under the Children's Act, 1908, the Secretary of State has analogous powers, and it is necessary in the interests of those committed to custody under the new provisions that similar powers should be exercised by the Government of this country.

9. I believe that no case has been made out for restraining the jurisdiction of Civil Courts to the extent proposed by the Bill. It should be quite sufficient if suits to impeach or question the validity of proceedings of Criminal Courts under the Bill are prohibited. Cases can be easily imagined in which the guardian lawfully appointed under the new law may be found misconducting himself in respect of his ward in several ways, and it would not be in the interests of the girl, or in the public interest, to prevent her relations from seeking prompt relief in a Civil Court. The discretion vested in a magistrate to vary his original order is most inadequate for the purpose of meeting all such cases. Besides he has no power of issuing a temporary injunction pending investigation.

The new guardian might suddenly start for South Africa or the West Indies with the girls committed to his charge.

10. I think it most desirable that, where the relatives of the girl to be rescued demand it, the inquiry should be held before a jury. It must not be forgotten that the Bill aims in the main at the protection of minor girls against probable future contamination. The judgment must, from the very nature of the circumstances, be highly speculative, and the task of the magistrate would often be most embarrassing. A jury drawn from the people amidst whom the prostitutes live would be of great help in assisting the magistrate and saving him from possible odium.

We must remember that prostitution in certain forms continues to be recognised by large classes of people in this country and social intercourse between them and the rest of the society is common and without reproach. A magistrate, especially if he is not an Indian of experience, is apt to misunderstand and misinterpret the significance and effect of several circumstances arising from this social intercourse. Social intercourse with *Deva Dasies* and *Basavies* of Southern India is a totally different thing from visiting the company of a prostitute in the dark purlieus of a Western City.

11. I think that the object of these rescue provisions would be the better achieved and Indian society would the more readily co-operate with the authorities if Government starts free boarding schools and orphanages for girls in an increasing rate Individual custodians of fallen and falling girls are not ordinarily desirable in the interests of girls or in their own, and private homes are few and not always very satisfactorily managed.

12. In conclusion, I desire to state that the time allowed for me to place on record my opinion in regard to the Bill as finally amended has been very short and for these reasons I have not been able to make this minute as complete or exhaustive as I should otherwise have desired. If, however, the recommendation of the Committee that the Bill be republished is accepted by Council it is hoped that a further opportunity of examining the Bill in detail will be furnished.

C. VIJIARAGHAVACHARIAR.

The 10th March 1914.

MINUTE OF DISSENT BY THE HON'BLE MR. V. R. PANDIT.

I SUPPORT the principle of this Bill and appreciate the improvements effected in the Select Committee At the same time I am of opinion that this occasion might have been availed of to make a greater response to a growing national feeling and raise ex-matrimonial age of consent for girls from 12 to at least 14 years. The provisions of the Bill are, in my opinion, capable of further improvement, and in particular I would invite attention to the desirability of including within the range of the agencies, through which the beneficent purpose of clause 6 of the Bill is sought to be achieved, homes other than those exclusively managed by persons professing the same religion as that of the rescued girl, provided adequate safeguards were introduced against interference with the religion of the girl.

V. R. PANDIT.

MINUTE OF DISSENT BY THE HON'BLE PANDIT MADAN MOHAN MALAVIYA.

THE amendments which have been made in the Select Committee have removed some defects which existed in the Bill as it was introduced into the Council. The Bill has further been improved by the introduction of certain safeguards which are always needed in a measure of this character To this extent the Bill as amended has my support. But some departures from the original provisions of the Bill have, in my opinion, undesirably enlarged the scope of the Bill and there are some further safeguards necessary to ensure that the Bill shall only serve the humane purpose which it is intended to serve, and not lead to unnecessary hardship. I will indicate these below.

But before I come to these, I would urge that the age of consent should be raised as against every one except the husband from 12 to 14 years, or at least to 13 years. Under the English law defilement of a girl under 13 years of age is punishable as felony (see section 4, Criminal Law Amendment Act, 1885), and defilement of a girl who is above the age of 13 years and under the age of 16 years is punishable as a misdemeanour (see section 5 of the same Act). It seems to me extremely desirable that a similar protection should be given to girls at least up to the age of 13 years, particularly in view of the amendments of the law which the present Bill proposes to introduce.

I would also add a section after 373 to punish carnal intercourse with a girl who has been obtained in any of the ways specified in section 372 by a man who knows that she has been so obtained. In the absence of such a section, the agents will be punished, but the principal will go scot-free.

Clause (*b*) of section 552A stood in the original Bill as follows :—

> " (*b*) Is lodging or residing in a house, *or other place used as a human dwelling,* or the part of a house *or such place,* used by any prostitute for purposes of prostitution, or is otherwise living in circumstances calculated to cause, encourage or favour the seduction or prostitution of the child."

This practically followed the wording of section 58 (1) (*g*) of the Children Act, 1908. In the form of the clause as amended by the Select Committee, the first portion is entirely omitted, for reasons given in paragraph 6 of the Report. I consider the omission regrettable. The sentence omitted was, in my opinion, used in the English Act, and in the original Bill, to bring prominently before the mind of the Magistrate the kind of danger from which girls under 16 are to be protected. It is true that the second sentence of the clause as it stands in the English Act, if taken apart from its context, is capable of being interpreted as referring to circumstances entirely unconnected with any prostitute. But I submit that *ejusdem generis* the second portion read with the first would indicate that it was meant to refer to circumstances similar to those mentioned in the first. As the clause now stands in the amended Bill, the scope of the Magistrate's enquiry has been greatly widened And I consider this objectionable in view of the fact that there are no certified Industrial schools, or homes such as exist in England, for the reception of girls who may be brought under the operation of the wider provision proposed by the Select Committee. I would substitute the following clause for clause (*b*) of the Bill :—

> " (*b*) Is lodging or residing in a house, or the part of a house, used by any prostitute for the purposes of prostitution, or living in circumstances calculated to cause, encourage or favour her prostitution by the influence or agency of any prostitute, or the keeper or manager of a brothel."

The law can be amended after a few years' experience of the working of the Act in this limited form, and when, with the co-operation of the Government and the people, homes have been provided for the reception of girls who may come within the scope of the broader provision of the Bill as proposed by the Committee.

I am also strongly of opinion that the provisions of the Bill should not apply to females under 16 who have been married. The marriage of a girl alters her status, and as a rule affords her a protection against temptation and exposure to evil which her unmarried sister does not enjoy. She should therefore not be liable to be dealt with under this Act. It may be that this may result in protection being refused in some cases in which it may be needed. But the inclusion of married females is likely to lead to much greater hardship and will give rise to much dissatisfaction. For these reasons I would add a second proviso to section 552A (1) as below :—

> " Provided also that no female under 16 years who has been married shall be treated as coming within the scope of this section, except where the court is satisfied on inquiry that the marriage is a mere pretext for avoiding the provisions of this Act."

I would alter clauses 2 and 3 of section 552B as follows :—

"(2) where the religion of the female is known or can after reasonable enquiry be ascertained, a suitable person who is of the same religion as such female is willing to undertake her custody; and (3) where the religion of the female is not known or cannot after reasonable inquiry be ascertained, a suitable person is willing to undertake her custody and to give such an undertaking as to the court seems sufficient that she shall not be converted to any particular faith so long as she remains in his charge."

I would add a 4th clause as follows :—

"any other suitable person."

And after clause 2 of section 552B I would add:—

"In any case where the female has been placed pursuant to an order under this section with a person who has not given such an undertaking as aforesaid, the court which made the order, or any court of like jurisdiction, shall on the application of any person in that behalf, and on its appearing that a fit person who will give such an undertaking as aforesaid is willing to undertake the care of the female, make an order to secure her being placed with a person who gives such an undertaking as aforesaid."

The amendments recommended by the Select Committee fully secure that where the religion of a child is known or can after reasonable enquiry be ascertained, she shall be made over to the custody of a person of the same religion. This is quite satisfactory so far. But in the case of female minors whose religion is not known or cannot be ascertained at the time of making an order, the Bill permits the Magistrate to commit the minor to the custody of any suitable person, irrespective of his religion. The object of the further amendment which I suggest is that, in such cases, the child shall, preferably, be entrusted to the care of a person or association who would give an undertaking that the child shall not be converted to any particular faith until she is in his or their charge. I would provide that, in the absence of a person willing to give such an undertaking, a child may be made over to the custody of any suitable person without such an undertaking; but in that case again I would provide on the analogy of section 23 (*b*) of the Children Act, 1908, that when a suitable person comes forward to give such an undertaking the Magistrate shall order the custody of the child to be transferred to such a person

The object of my amendments is that every reasonable safeguard should be provided against the provisions of this Act leading indirectly to the conversion of a female minor who is brought under the humane provisions of this Act. In support of this view, I would invite attention to the following passage in the opinion of the Hon'ble Mr. T. Richmond, Barrister-at-Law, of Madras. The remarks were written when the Bill stood in its original form. But they still illustrate my point so far as the care of children whose religion is not known, or cannot be ascertained, at the time of making the order, are concerned. Says the Hon'ble gentleman :—

"4 Under section 6, clause 3 (*b*), the Magistrate can make over the child to the Salvation Army or any such missionary body in the absence of a person or association of the child's religion willing to take over the minor I know of no such associations in this Presidency except the local Society for the Protection of children working in a small way. The result will be that bodies like the Salvation Army and others who are earnest workers in the purity cause will constantly set the law in motion and get the minors into their hands and possibly also succeed in converting them to the Christian faith. I admit the result would be so far good, but I am not, however, equally sure of its expediency, as in the eyes of the ordinary uneducated man and woman, who after all form the bulk of the population, the measure, when successfully worked by the missionary agencies, may appear to them, especially in the mufassal where there are not likely to be competing agencies, as more or less a Government measure for proselytizing these minors to the Christian faith. I will only say that the matter requires consideration from this standpoint."

After section 552B (2) I would put in the following clauses :—

1. "If the female has a parent or legal guardian, no order shall be made under this section, unless it has been proved to the satisfaction of the court making the order that the female has been exposed to the risk of prostitution, or living a life of prostitution, with the knowledge of her parent or guardian, or that the parent or guardian cannot be found."

[*Cf.* section 21 (2) of the Children Act, 1908.]

2. "The Local Government may at any time in its discretion discharge a female from the care of any person to whose care she is committed in pursuance of this section, either absolutely or on such conditions as the Local Government approves."

[*Cf.* section 21 (5) of the Children Act, 1908.]

3. "No person to whose care a female is committed under this section shall remove her out of the jurisdiction of the court which made the order about her custody or procure her emigration, except with the authority of the Local Government."

[*Cf.* section 21 (6) of the Children Act, 1908.]

From clause 3 of section 552B I would omit the words "with the consent of the person to whose custody the female is committed." I would also omit the same words from (4 *b*) of the same section.

In section 552D (1) after the words "be deemed to be the lawful guardian of such female," I would add the following "for the purposes of this Act," and after clause 1 of the same section I would add :—

"No guardian appointed under this Act shall have the right as such to dispose of his ward in marriage without an express authority from the court which committed her to his custody, or from a court of like jurisdiction ;

"(2) The natural guardian of the female respecting whom an order has been passed under section 552B may give away such female in marriage with the permission of the court which passed such an order. The Magistrate shall give such permission except where he has reason to believe that the proposed marriage is not a *bonâ fide* arrangement."

In clause 3, section 552D, I would make it clear that the power of the High Court for revision is not taken away by the section. I would restore section 552B of the Bill as it stood in the original Bill which empowers the court to pass an order for a contribution by the parents or the legal guardians of a female transferred from their custody for the maintenance of the child, with this further provision, that "the Local Government may in its discretion remit wholly or partially any payment ordered under this section." [*Cf.*, section 75 (8) of the Children Act, 1908.]

A contribution by a parent or a guardian for the maintenance of the child will keep up the natural tie between the parent or guardian and the child, and will bring it home to the parent or guardian that the removal of the child from their custody is meant only for the welfare of the child and not to break up the natural tie between them and child The section gives a discretion to the Magistrate to pass an order for contribution where he is satisfied that the parent or guardian is in a position to make such contribution, and the further proviso which I suggest will provide for relief in any case in which the order is likely to work hardship. This section if restored would come in as 552E.

I would add a further section as 552F, as follows :—

"The Local Government may make rules for the guidance of Magistrates in regard to instructions and conditions to be annexed to any order under this Act, and for safeguarding the welfare of females in respect of whom orders under this Act are made; in particular, and without prejudice to the generality of the foregoing provisions, such rules may provide for facilitating the marriage of a female in accordance with the custom of her tribe or caste, and also to provide that any institution where a female is placed under the provision of this Act, should be visited and inspected from time to time by persons appointed by him for the purpose." (*Cf.*, section 25 of the Children Act, 1908.)

I would also add a section like section 38 of the Children Act, 1908, as follows :—

"In this Act unless the context otherwise requires the expression 'suitable person' in relation to the custody of a female minor includes any society or body corporate established for the reception or protection of such minors."

I regret that owing to want of time I have not been able to give at full length the reasons for the suggestions I have noted above. But I wish generally to say that in view of the fact that a measure of this kind is being introduced for the first time in this country, the Act should in my opinion contain provisions similar to those of the Children Act of 1908, of England, to which I have referred. It should be remembered that there are numerous certified industrial schools, reformatory schools, and a large number of homes in England for the reception of children rescued from unsatisfactory surroundings. We have very few of such institutions at present in India. Yet the English Act contains many safeguards which are wanting in the Bill in question. I feel that in the present circumstances of this country there is much greater need for such safeguards here than in England. And I therefore recommend that these should be provided before the Bill is put into its final shape and passed.

MINUTE OF DISSENT BY THE HON'BLE MR. MADHU SUDAN DAS.

IN my opinion the modification of the Bill which has been made by the insertion of clause (iii) of the section 552 B, which it is proposed to add to the Code of Criminal Procedure, 1898, is open to objection. It will create difficulties and will seriously impair the utility of the new provision of the law.

M. S. DAS.

MINUTE OF DISSENT BY THE HON'BLE BABU SURENDRA NATH BANERJEE.

I SIGN the Report of the Select Committee subject to the following note of dissent :—

1. I think that intercourse with an unmarried girl between the age of 12 and 14 should be made a criminal offence, whether the girl is a consenting party to such intercourse or not, and that the Bill should include a clause to this effect, the punishment being that prescribed in England for such an offence under the Criminal Law Amendment Act, 1885. I also think that the penal provisions of section 373 should be extended to any person who has intercourse with a girl under sixteen years of age knowing that she has been bought or hired with any of the intentions specified in that section.

2. I am of opinion that the rescue provisions of the Bill should not apply to married girls except where the marriage is a mere pretext, and that the powers of the guardian should be restricted to matters falling within the scope of the Bill.

3. Under the Bill (section 552 B) a rescued minor girl can only be made over to the custody of a suitable person of the same religion. No provision is made in the Bill for the custody of rescued girls when such persons are not forthcoming. Cases may occur when persons of the same religion may not be found who would take charge of the rescued girls. They should not be sent back to the brothels or to their former custodians but should be made over by the Magistrate to persons or institutions professing a different religion, subject to the condition that such minor girls shall not be permitted to change their religion until they have attained their majority.

GULF OF ADEN.

Aden—Storm-warning signals established.

No. 162 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 246 of 1914), are republished:—

Position.—At flagstaff on Ras Marbut (Steamer point). Lat. 12° 47¼′ N., long. 44° 58½′ E.

I.—Cautionary Signal.

The square flag W of the International Code, hoisted as a cautionary signal, indicates the existence of disturbed weather off some part of the west coast of India or in the neighbourhood of the port, or the advance of a cyclonic storm across the Indian Peninsula, from the Bay of Bengal, which may hence shortly cross the Western Ghats of India and give squally or stormy weather in the Arabian sea. The disturbed conditions may, in any of these cases, pass away without giving stormy cyclonic weather to the ports on the west coast of India or to the adjacent parts of the Arabian sea, in which case the cautionary signal will be taken down, as soon as it is certain that stormy weather will not shortly follow.

If, however, the disturbed weather be the first indication of the probable formation or approach of a cyclonic storm, this cautionary signal will be followed by one of the ordinary storm signals, indicating the probable position, character and track of the approaching storms. This signal would be hoisted if the disturbing conditions were thought likely to affect either Aden or the tracks of vessels leaving Aden.

II.—Warning Signal.

The warning signal, *viz.*, a ball by day and a *red* light by night, will be hoisted (*a*) when a storm has formed and is threatening to advance towards Aden, though still at a considerable distance; or (*b*) when a storm has formed and is not likely to affect Aden, but to cross the tracks of vessels leaving Aden.

III.—Danger Signals.

(1) By day, a cone apex downwards, or by night, a *red* light vertically above a *white* light indicates that a cyclonic storm (probably of slight to moderate intensity) may affect the port, and that its centre will probably pass considerably to the southward of the port in a westerly direction.

(2) By day, a cone apex upwards, and by night, a *red* light vertically below a *white* light indicates that a cyclonic storm (probably of slight to moderate intensity) may affect the port, and that its centre will probably cross considerably to the north-east of Aden.

(3) By day, a drum, and by night, two *red* lights in a vertical line indicates that a cyclonic storm (probably of slight to moderate intensity) will probably cross the coast over or near the port.

IV.—Great Danger Signals.

In order to indicate that a cyclonic storm in the sea area near the port is of great intensity, a ball (by day) or a *red* light (by night) is added to the corresponding danger signal.

(1) By day, a cone apex downwards, and ball below, and by night, two *red* lights with a *white* light below arranged in a vertical line indicate that a cyclonic storm of great intensity may affect the port, and that its centre will probably pass considerably to the southward of the port in a westerly direction.

(2) By day, a cone apex upwards and ball below, and by night, two *red* lights with a *white* light above in a vertical line indicate that a cyclonic storm of great intensity may affect the port and that its centre will probably cross the coast considerably to the north-east of the port.

(3) By day, a drum with a ball below, or by night, three *red* lights in a vertical line indicate that a cyclonic storm of great intensity will probably cross the coast over or near to the port.

RESOLUTION ON THE SURVEY AND SETTLEMENT REPORTS FOR THE YEAR ENDING THE 30TH SEPTEMBER 1913.

REVENUE DEPARTMENT.

LAND REVENUE.

CALCUTTA, THE 30TH MARCH, 1914.

RESOLUTION—No. 3787.

READ—

The Survey and Settlement Reports for the year ending the 30th September 1913.

THE Survey and Settlement Reports, which were due to Government on the 15th January, were not received till nearly two months later The Governor in Council trusts that efforts will be made to submit the reports more punctually in future. The Directors should endeavour to send their reports to the Press at the beginning of the cold weather, so that they may be able to devote the field season to touring and inspection.

2. Mr. J. C. Jack, I.C.S., was in charge of the Settlement Department until the 11th April 1913, when he was succeeded by Mr. M. C. McAlpin, I.C.S., by whom the present report has been submitted. Under a temporary arrangement made on the reconstitution of the Provinces in April 1912, Lieutenant-Colonel R. T. Crichton, C.I.E., who was appointed Director of Surveys, Bihar and Orissa, continued to supervise survey work in the Burdwan and Presidency Divisions (including Calcutta), and in the district of Darjeeling, while Captain (now Major) F. C. Hirst remained, as before, in charge of the work in Eastern Bengal and in Assam. This arrangement ceased on the 21st March 1913, when, owing to Lieutenant-Colonel Crichton's departure on long leave, the operations of which he was in charge in this Presidency were placed under the control of Major Hirst. The work done for this Presidency in the old Bengal Drawing Office was, at the same time, transferred to the Shillong Drawing Office, which will serve both Bengal and Assam until suitable accommodation can be found by this Government in Calcutta for a separate Drawing Office of its own. Major Hirst's head-quarters were transferred to Calcutta in April 1913, but he continues to be Director of Surveys in Assam as well as in Bengal. A joint staff for supervision and control has been sanctioned temporarily for a period of two years, when it will be considered whether this arrangement should continue, or whether it would be more convenient for the two Provinces to have entirely separate Departments, each under a whole-time officer.

3. The reunion of the survey operations of Eastern and Western Bengal under one controlling officer led to a reconsideration of the internal organisation of the Department. The four traverse sections, corresponding to the four major settlement parties—three in Eastern Bengal and one in Midnapore—which had previously been under the direct control of the Director of Surveys, were on the 1st June 1913 amalgamated into a single Traverse Party in charge of a senior officer of the Provincial Service of the Survey of India, with one assistant to help him in the work of supervision and one field assistant in each district, while for miscellaneous work unconnected with district surveys and records of rights a Miscellaneous Traverse and Survey Section, with an officer of the Provincial Service of the Survey of India in charge, has been created experimentally for two years from the 15th May 1913. The survey of Calcutta and the adjoining areas continues to be

dealt with by a special party, but it is proposed to merge its work gradually in that of the Miscellaneous Traverse and Survey Section. The new arrangement has resulted in a saving of cost and in the more efficient supervision of all branches of the work.

4. A new departure of considerable importance was the establishment of a Survey school. The primary object of the school is to provide fully qualified traverse surveyors, as it has been found that the training in surveying given in existing engineering schools and other similar institutions is not suitable for the purposes of the Provincial Survey Department. It was therefore decided that the Department should have a school of its own where land-surveying, as opposed to other forms of surveying, should form the principal subject to be taught. The selection of a site for the school presented considerable difficulties, as it was necessary that the locality, besides being healthy and fairly accessible, should be so situated as to enable the students to practise land-surveying in hilly as well as in flat country. The place selected, after a careful consideration of likely sites in various parts of the Province, is in the Mainamatti hills, about four miles from the town of Comilla in Tippera. The school was opened on the 2nd January last, with Mr. C. S. Kraal, a retired officer of the Survey of India, as its Principal. The full course of instruction extends over two years, but it is open to those who join the school to take the first year's course only. This shorter course is intended to train students for employment as district kanungos or as surveyors in wards' and ordinary private estates, while the two years' course will fully qualify students for employment in the Provincial Survey Department or in any other form of land-surveying. The maximum number of admissions fixed for the first year's course is 50, and for the second year's course 30. The school has started with 35 students, and, if they acquit themselves well, the Director of Surveys expects to be able to provide appointments for all of them either in his own Department or under zamindars or the Court of Wards.

5. According to the revised figures given in the present Settlement Report, the total area of British territory in this Presidency, excluding large rivers, is 73,031 square miles, of which 5,483 square miles are covered by reserved forests, and 2,337 square miles are unsettled waste at the disposal of Government. The settled area comprises 65,211 square miles, in 63,699 of which the Bengal Tenancy Act is in force. A record-of-rights, prepared under Chapter X of that Act, has been finally published in respect of 10,921 square miles. The districts in which operations on a large scale were in progress during the year are Dacca, Mymensingh, Midnapore, Rajshahi, Faridpur and Jalpaiguri. To these may be added an area of 137 square miles in the Rampurhat subdivision of the district of Birbhum, where operations were begun in 1909-10 in advance of the Provincial programme, in consequence of serious discontent amongst the Sonthal cultivators.

6. The work of the Survey Department, so far as these operations are concerned, lay in the district of Dacca, the traverse survey of which was practically finished during the year, and in the districts of Mymensingh, Rajshahi and Midnapore. The total area surveyed during the year amounted to 3,562 square miles as against 3,279 square miles in the previous year. The Survey Department also dealt with various miscellaneous items of work, which included, besides the completion of what remained of the survey of the city of Calcutta, the survey, on account of the Calcutta Improvement Trust, of the Maniktala, Tollygunge, South Suburban and Cossipore-Chitpur Municipalities, in all of which fair progress was made in spite of considerable difficulties in demarcation. Every effort is being made to keep down the cost rates of traverse survey, and orders have recently been issued prescribing the submission, by both the Survey and Settlement Departments, of an annual account in a form which, it is hoped, will in future enable Government to exercise adequate check over increases of expenditure due to failure to carry out the sanctioned programmes or to other causes. Major Hirst was also, with the permission of Government, called upon to advise the Cooch Behar State with reference to survey and settlement operations in that State, and has commented, in an interesting paragraph, upon the zeal

and *esprit de corps* which have been displayed by the officers of the Raj in organising the work.

7. Of the major operations carried on by the Settlement Department, those in the districts of Faridpur and Jalpaiguri and in the Rampurhat subdivision of the district of Birbhum are in their final stages. In the last-named settlement orders have been issued regarding the rates to be applied in the settlement of fair rents under section 112 of the Bengal Tenancy Act, and it is expected that the operations will be completed by the end of June next. In Faridpur and Jalpaiguri the work is not likely to be finished before the end of the financial year 1914-15. In the former district, the cyclone of 1st November 1912 destroyed a large number of records and caused a serious set-back to the work. There has, moreover, been unusually heavy case-work under sections 105 and 106, for the disposal of which special arrangements have been made. In Jalpaiguri the Settlement Officer had to work with an insufficient and inefficient staff, demoralised by malaria, and the discovery of bad work in part of the records necessitated a considerable portion of the work being redone. The explanation of the delay in this district does not appear, however, to Government to be altogether sufficient. In the other districts dealt with by the Settlement Department the programme carried out with the exception of a few comparatively unimportant items which have been adequately explained by the Director. The total area which was cadastrally surveyed and in respect of which preliminary records were written in the districts of Mymensingh, Dacca, Midnapore and Rajshahi was 3,555 square miles as against a normal programme of 3,200 square miles. Cadastral survey was begun in the district of Rajshahi in the year under report. The attestation of preliminary records was therefore carried on mainly in three districts, and covered an area of 2,717 square miles, while final publication which covered 1,875 square miles was confined to Faridpur, Mymensingh and Jalpaiguri. Recovery of costs was carried on in the Rampurhat subdivision of the district of Birbhum, and in the districts of Mymensingh and Faridpur, and in the two latter districts fell short of the estimates. In Mymensingh the principal landlords were unable to pay before the Durga and Lakhsmi Puja holidays which occurred after the close of the year, and in Faridpur the deficit was due mainly to the lateness of the jute crop which delayed the commencement of recovery for nearly two months. The settlement of land revenue completed to the end of the year in the Western Duars Government Estate in the district of Jalpaiguri resulted in an increase of 25·5 per cent. A considerable area was also resettled in the district of Faridpur, where there was an increase of revenue amounting to 75 per cent., most of which was due to extension of cultivation.

8. The working of the scheme, experimentally sanctioned by the late Government of Eastern Bengal and Assam, for carrying out partitions under Act V (B.C.) of 1897 through the agency of the Settlement Department, was further examined during the year. The scheme was first introduced in the district of Faridpur, and subsequently extended to Dacca and Mymensingh. Its advantages are great, and the large number of cases recently filed indicate that it was appreciated by those chiefly concerned in partition proceedings. The difficulties and delays caused by the cumbrous procedure of the existing law of partition have, however, seriously retarded the completion of the record-of-rights and its final publication, and must inevitably add greatly to the cost of the operations. The Governor in Council has therefore felt constrained to abandon the scheme, and, with the concurrence of the Board of Revenue, has directed that no further partition work should be undertaken by the Settlement Department until the defects in the present law are removed.

9. The question of the heavy cost of settlement operations in Bengal has continued to receive the unremitting attention of the Director of Land Records and of Settlement Officers. The tables of cost rates given in paragraphs 62 to 64 of the Director's report show that substantial economies have been effected in many instances. This satisfactory result is due in some cases to local conditions, but mainly to the fact that the operations now in progress are beginning to reap the benefit of the pioneer work done in Bakarganj and Faridpur. It is particularly satisfactory that the cost of printing the record-of-

rights is falling. At the same time, the Governor in Council fully agrees with Mr. McAlpin that economy can be carried too far, and that it would be a fatal error to adopt measures which would diminish the value of the record, merely in order to reduce the cost of printing.

10. The Settlement report, as usual, furnishes some interesting glimpses of the relations between landlord and tenant in different parts of the Province. It is often assumed that the Bengali cultivator is a person who is well able to look after his own interests, and requires no special protection from his landlord, but this report contains many melancholy instances of oppression and wrong-doing hardly surpassed in the most backward parts of Bihar. One noticeable feature is that the most flagrant instances of illegal enhancements of rent have been found in the estates of large proprietors, some of whom hold high positions in Government service. The explanation is no doubt to be found in the fact that these gentlemen are necessarily absentee proprietors, and the Governor in Council hopes that, now that the enquiries of the Settlement Department have revealed the true condition of their estates, they will take steps to control the action of their local agents, and so fulfil the responsibilities which, as they must be aware, devolved upon them in connection with the permanent settlement of their estates for the proper treatment of their tenants of every degree.

11. Minor settlement operations were in progress in 16 districts, and the report indicates that the placing of these settlements under the control of the Director of Land Records has already had a good effect. Greater attention is being paid to the work than before, and defects in procedure are being brought to light and remedied. There are also satisfactory signs that a growing interest is being taken by District Officers in the maintenance of boundary marks, and that the settlement records are being freely utilised in various branches of administration.

12. Reference was made in the Resolution on the Survey and Settlement Reports for the year 1911-12 to the notable services rendered to Government by Lieutenant-Colonel Crichton, C.I.E., and Mr. J. C. Jack, I.C.S. The thanks of the Governor in Council are due to Major Hirst and Mr. McAlpin for their efficient and vigorous administration of the Departments under their charge. Their subordinates, with few exceptions, maintained the high standard of work which is expected from officers of the Survey and Settlement Departments, and His Excellency in Council desires particularly to acknowledge the good services rendered in their responsible posts by the officers in charge of the major settlements.

ORDER.—Ordered that this Resolution be published in the Gazette, and that a copy of it, with copies of the two reports, be submitted to the Government of India.

By order of the Governor in Council,

J. H. KERR,

Secretary to the Govt. of Bengal.

Public Works Department, Bengal.

NOTICE.

FOR maintenance and working of the Barkal Tramway and rolling-stock from Peshkcherra to Chaltatali, 1½ miles long, on the right bank of the river Karnafuli, in the Chittagong Hill Tracts.

The Superintendent, Chittagong Hill Tracts, Public Works Department, invites tenders for the above work for a period of 12 months from 1st April 1914. A copy of specification for the said work is given in schedule A. A summary of conditions, maximum rates for passengers and luggages, etc., on which the contract will be drawn up, can be seen from the subjoined copy of current agreement with contractor Babu Kailash Chandra Mittra, of Suvarnagram, Dacca, given in schedule B.

The undersigned is prepared to consider any subsidy if required for the maintenance of the service.

A list of rolling-stock, plant, bridges, buildings and furniture, etc., to be maintained is given in schedule C.

Each tender must be accompanied by earnest money in currency notes, amounting to Rs. 25 only, which will be returned in case of the tender not being accepted, and will be treased as security in the case of the successful tenderer.

Tenders must be forwarded in sealed cover, addressed to the Superintendent, Chittagong Hill Tracts, Public Works Department, Rangamati, and must reach him on or before the 27th March 1914. The cover should be superscribed in red ink "Tender for working and maintenance of the tramway line, rolling-stock, etc, at Barkal from April 1914, to be opened on the 28th March 1914." Unless so superscribed they are liable to be returned without consideration.

The Superintendent, Chittagong Hill Tracts, does not bind himself to accept the lowest tender or to assign any reason for non-acceptance.

O. MAWSON, Superintendent, Chittagong Hill Tracts.

Rangamati, the 4th March 1914

SCHEDULE A

Specification.

For working the Barkal Tramway and maintenance of the line and the rolling-stock the contractor will employ a work agent and a staff of (say) six men at Barkal, varying in strength according to the traffic and stress of work on the line.

The contractor will be responsible for keeping waterways and approaches of bridges perfectly clear all through the year and taking care of all bridges and culverts on the tramway and of Government buildings and for executing petty repairs thereto as occasion arises (save annual repairs to bridges and buildings) and for the safe custody of all furniture and stores at Barkal. All stores used up or rendered unserviceable by the contractor must be replaced at his cost.

Except where the line is fairly level and straight, the trollymen must not get on the trolly especially when it is running down a slope. Sleepers should be well packed with earth to give an even bearing surface and necessary camber to the rails. The line should be maintained in smooth uniform straight lines and curves, the inside of adjacent rail heads being kept in one uniform-line (to prevent jolting and breakage of wheels, axle-boxes, etc.) by properly placing the sleepers and keying the rails thereto.

All worn-out parts of trucks and trollies to be renewed and all damaged or broken parts to be replaced by the contractor.

Axle-boxes of trucks should always be kept well lubricated with oil, etc., and to be maintained in a perfectly clean condition. All wrought-iron or steel work to be painted with redlead paint.

The whole length of the line, about 1½ miles in length, to be kept clear of slips caused by rain or otherwise and of all jungle growth all through the year for a width of about 60 feet.

Similarly the approaches to the rest-houses and to the river in the different places on the line should be properly maintained and kept clear of jungle, etc., to the usual width.

A clear width of 10 feet for road-way with ordinary barrelled surface of road, side drains and cross drains for free drainage with small cut as outlets or water passage at short intervals from the outer drains to prevent the tract being cut away by the drainage should be maintained by widening where necessary with about two feet wide side parapet of earth to prevent accidents and to stop derailed tracks.

After the rains are over, all irregularities or hollows in the roadway should first be levelled off, and when this is done, fresh earth cut from the hill side added so as to make up the road to the prescribed section, that is to give a camber or rise of 1 in 12 inches, the centre of the roadway. The new earthwork must be consolidated by ramming or rolling early in the morning of the day following that on which it is put on the road, so as both to retain the moisture in the soil, and to take advantage of the dew before it evaporates.

SCHEDULE B.

Contract between the Superintendent, Chittagong Hill Tracts, on behalf of the Secretary of State for India in Council on one side, and on the other Babu Kailash Chandra Mittra, son of late Ram Kinkor Mittra, of Suvarnagram, thana Munshiganj, district Dacca, the executor of the estate of the late Roy Abhoya Charan Mittra Bahadur.

KNOW all men by these presents that I, Kailash Chandra Mittra, of Suvarnagram, thana Munshiganj, district Dacca, executor of the estate of the late Roy Abhoya Charan Mittra Bahadur, residing at present at Chittagong, do hereby contract with the said Secretary of State for India in Council or his successor, and do hereby also agree and bind myself by the said contract to carry on the working and maintenance of the tramway, about 1½ miles in length (excluding annual repairs to bridges and buildings) and of the rolling-stock at Barkal together with the upkeep, repairs and sweeping of the line and the approach roads at that place for an annual subsidy of Rs. 600 (six hundred) only to be paid to me by instalments subject to the conditions enumerated below :—

(1) That the contract for the said work be for a period of 12 months from the 1st April 1914 to 31st March 1915 with the option of renewal on terms to be then settled.

(3) That the rates of carriage shall be asperdetails given below and to continue to be in force during its currency—

(a) All stores, materials ordered or required by the said Superintendent or the District Engineer for transport in trucks over the line at Barkal to be allowed free of charge without objection.

(b) All other goods conveyed to be charged at the rate of 2 annas per maund.

(c) Goods weighing more than half a maund and less than one maund to be charged as one maund.

(d) Goods weighing less than half a maund to be charged as half maund at the rate of one anna.

(f) Goods weighing more than 6 maunds and carried in one truck to be charged at 2 annas per maund.

(g) Ordinarily the goods to be carried over the tramway in any single day will not be less than 60 maunds or more than 80 maunds, but in special cases the Superintendent, Chittagong Hill Tracts, or the District Engineer may direct the contractor to exceed the above to any reasonable extent.

(4) That half-yearly return of stores will be submitted at close of each half-year and periodical return of traffic will be submitted at the end of each month or as may be required.

(5) That the undertaking and everything appertaining thereto shall be maintained and repaired efficiently to the satisfaction and according to the instructions and orders of the Superintendent and the District Engineer, Chittagong Hill Tracts, and that the contractor's books and accounts be open to the inspection of the said officers at all times, and without the permission of the said Superintendent and District Engineer nothing shall be removed nor any alteration in the work made. In the event of any defects in the maintenance, repairs or proper working the same can be mended by the said officers at my expense and the contract may also be summarily terminated, all losses being recovered from me.

(6) That in the event of any dispute arising an appeal shall lie to the Superintendent, Chittagong Hill Tracts, whose decision shall be final.

[Cf. Ben. Act I of 1899, s. 25.] Ben. Act V of 1909.

(3) Every license, permit or pass which was granted under any section of the Eastern Bengal and Assam Excise Act, 1910, or of any Act repealed thereby, and is in force at the commencement of this Act, shall be deemed to have been granted under the corresponding section of the Bengal Excise Act, 1909 (as amended by this Act), and shall (unless previously cancelled, suspended, withdrawn or surrendered under that Act) remain in force for the period for which it was granted. [Cf. Ben Act V of 1909, s 39, E. B. & A. Act I of 1910, s. 24.] E. B. & A. Act I of 1910 Ben. Act V of 1909

STATEMENT OF OBJECTS AND REASONS.

THERE are two Excise Acts at present in force in the Presidency of Fort William in Bengal, namely, Bengal Act V of 1909, which has been in force in the Presidency and Burdwan Divisions and in the district of Darjeeling since the 1st December, 1909, and Eastern Bengal and Assam Act I of 1910, which has been in force in the Dacca Division, the Rajshahi Division (except the district of Darjeeling) and the Chittagong Division (except the Chittagong Hill-tracts) since the 1st April, 1912.

II. It is both inconvenient and undesirable for the purposes of Excise administration to have two different Acts in force in different parts of the Presidency. Both these Acts follow recommendations made by the Indian Excise Committee of 1905, and are based on a Bill framed by that Committee; and they are not only identical in principle, but also nearly identical in details. There will therefore be little difficulty in adopting one of them for the whole of the Presidency, and it has been decided to introduce the Bengal Act throughout the Presidency, and to repeal the Eastern Bengal and Assam Act therein. The Bengal Act has been chosen in preference to the Eastern Bengal and Assam Act, *first*, because it has been in force for a longer time, and, *secondly*, because an Excise Manual in connection with the Bengal Act was published more than two years ago. It would be an advantage to introduce this Manual throughout the Presidency, with such modifications as may be necessary, immediately the law is made uniform throughout the whole of the Presidency. No such Manual was issued in connection with the Eastern Bengal and Assam Act.

III. In introducing the Bengal Act throughout the Presidency, it is necessary that certain amendments be made in it, in order to adapt the Act to the Eastern Bengal districts and to incorporate such provisions of the Eastern Bengal and Assam Act as are necessary to this end. The opportunity is also taken to clear up doubts which have arisen in the Courts as to the proper interpretation and scope of certain sections of the Act and as to the intention of the Legislature; and also to exclude all reference to the Board of Revenue, in consequence of the decision to transfer the administrative control of the Excise Department to the Local Government.

IV. All amendments of importance which it is proposed to make in the Bengal Act are mentioned in the subjoined notes.

NOTES ON CLAUSES.

1. *Clause 3.*—It is proposed to substitute the words "alcoholic liquor" for the words "intoxicating liquor" in the preamble to Bengal Act V of 1909. The High Court, in a recent case of importation of sundry medicines containing alcohol from French Chandernagore into Calcutta, without payment of duty either under the Indian Tariff Act or under the Bengal Excise Act, expressed doubts as to (*1*) whether such medicines are excisable articles and, as such, come within the purview of the Excise law, and (*2*) whether such importation is illegal under the Excise Act, in view of the present wording of section 9 (*2*) of the Act. When the Bengal Excise law was enacted it was the intention of the Legislature to bring within its purview all liquid consisting of or containing alcohol. This principle is followed in the Madras and Bombay Excise laws [Madras Act I of 1886, section 3 (*9*), and Bombay Act V of 1878, section 4 (*7*)], and it was the principle adopted in the Indian Excise Committee's Bill. These Excise laws contemplate full control over all liquid consisting of or containing alcohol, whether such liquid is a *bonâ fide* medicine or otherwise. It was, of course, not intended to interfere with *bonâ fide* medicines; and in section 71 of Madras Act I of 1886 and section 62 of Bombay Act V of 1878 there is a provision expressly exempting *bonâ fide* medicines. The Indian Excise Committee's Bill also had a section for exempting *bonâ fide* medicines from the purview of the Excise law, except in so far as the Local Government might by notification direct. Neither in Bengal Act V of 1909 nor in the former Bengal Act VII of 1878 was there any such special provision for an exemption of this nature. Bengal Act V of 1909 (section 90), however, gives the Local Government power to exempt any excisable article from the operation of the Act, and under this power the Local Government has allowed certain exemptions as regards the possession and sale of *bonâ fide* medicinal preparations containing alcohol on which full duty has been paid. But in doing so it has treated them as *excisable articles*.

2. In order to clear the doubts which have been expressed, and to bring all liquid containing alcohol more clearly within the purview of the Act, it is necessary to modify the wording of the preamble and the definition of "liquor" in section 2 (*14*) of the Act. The word "intoxicating" in the preamble is ambiguous. The substitution of the words "alcoholic liquor" for "intoxicating liquor" will make it clear that the scope of the Act extends to any liquid which contains alcohol, whether it is intoxicating or not in the ordinary sense of the term.

3. *Clause 4.*—The repeals and amendments proposed by this clause are necessitated by the transfer of the functions of the Board of Revenue to the Local Government or, in some cases, to the Excise Commissioner.

4. *Clause 5 (1) and (2).*—As it is somewhat doubtful what interpretation the Courts will place upon the word "intoxicating" in section 2 (*13*) (*ii*), it is desirable to avoid the term in a definition, and it is therefore proposed to repeal it. It is also proposed to repeal the same word in section 2 (*13*) (*iii*) so as to cover the case of *any* deleterious drug although the same may not be intoxicating in the ordinary sense of the term

Cocaine has been declared by the Eastern Bengal Excise Act, I of 1910, section 3 (*13*) (*c*), to be an intoxicating drug. In Western Bengal it has been declared an intoxicating drug by notification under the Bengal Excise Act, section 2 (*13*) (*iii*). In view of the importance of cocaine, it is desirable that the article should be declared an intoxicating drug by specific provision in the Act itself. Such a declaration is also rendered necessary by the addition which it is proposed to make to section 46 of the Act. The definition proposed in clause 5 (*1*) of the Bill is based on the notification above referred to.

5. *Clause 5 (3).*—The reason for the proposed change in the definition of "liquor" is explained in the notes on clause 3 above.

6. *Clause 5 (4).*—It is proposed to declare definitely that "manufacture" includes every process for the reduction of liquor for sale.

7. *Clause 5 (5).*—The proposed addition of the word "vehicle" to the list of things included in the word "place" follows the Eastern Bengal Excise Act, section 3 (*17*).

8. *Clause 6.*—The intention of sections 9 (*2*) and 27 (*3*) of the Bengal Excise Act is non-interference under the Excise law with articles which, on entering the Presidency from any foreign territory or by sea, duly pay the duty leviable on such entry under the Indian Tariff Act or the Sea Customs Act. The language of the new clauses now proposed follows the recommendations of the Indian Excise Committee, and is in consonance with the object intended. The Bengal Excise Act bars interference by an Excise officer on import, and permits him to interfere only with excisable articles in transport. But there is no Customs establishment at present on the borders of French Chandernagore or of Native States, and it is clearly necessary to provide that the import of excisable articles from such territories shall, in the absence of control under the Tariff Act, be controlled under the Excise Act, and that the duty on such articles, if not paid or realized under the Tariff Act, shall be realized under the Excise Act. Power to deal with imports from all foreign territories is now proposed to be given to Excise officers, but the power will not be exercised in the case of imports by sea. This provision will not interfere or in any way clash with the provisions of the Tariff Act or the Sea Customs Act.

9. *Clause 7.*—This clause adds a new proviso to section 13 of the Act, in order to allow without a license the drawing of *tari* for use solely for the preparation of food for domestic consumption A similar proviso was incorporated in the Eastern Bengal Excise Act, in consonance with the views of the non-official Members of the late Eastern Bengal and Assam Legislative Council, and it is desirable to retain the proviso for the present. The principle on which this exemption was made is the same as that on which *tari* used for the manufacture of *gur* has been exempted. Power to restrict the concession is given in section 14 of the Bengal Excise Act.

10. *Clauses 8 and 9* introduce into sections 18 and 19 of the Bengal Excise Act a clause like that introduced into section 13 by clause 7 of the Bill.

11. *Clause 10 (a)* is designed to simplify the procedure with regard to the grant of licenses for steamers and dining-cars.

12. *Clause 10 (b)* is designed to grant recognition to steamer and through dining-car licenses issued in other Provinces.

13. *Clause 10 (c) and (d).*—The proposed additions are taken from corresponding clauses in section 18 of the Eastern Bengal Excise Act.

14. *Clause 10 (e)* introduces into section 20 of the Bengal Excise Act a clause like that introduced into sections 13, 18 and 19 by clauses 7, 8 and 9 of the Bill.

15. *Clause 11.*—It is proposed to add the words "or the Excise Commissioner" at the end of section 22 of the Bengal Excise Act, in order to meet cases in which it might be found convenient to issue one license under the authority of the Excise Commissioner instead of separate licenses by each Collector, *e.g.*, a license for the wholesale supply of country spirit to several districts by a contract distiller.

16. *Clause 12.*—Section 28 of the Bengal Excise Act provides for the levy of duty on the cultivation or collection of hemp by means of an acreage rate. It is proposed to substitute for this a provision for the levy of duty either according to the area cultivated or according to the outturn, as in section 22 (*d*) (*1*) of the Eastern Bengal Excise Act.

17. *Clause 13.*—It is proposed to repeal section 39 of the Bengal Excise Act, because there are not now in force in Western Bengal any licenses granted under Bengal Act VII of 1878.

18. *Clause 14.*—This clause amends section 41 (*1*) of the Bengal Excise Act in order to bring it into line with section 31 of the Eastern Bengal Excise Act, under which a license-holder cannot surrender his license unless he pays his fees for the whole period during which the license would have been current but for the surrender. As section 44 stands at present, the licensee has the option of surrendering on giving a month's notice. He is liable to loss, in case of re-settlement of his shop, to the amount by which his settle-

ment fees fall short of the original fees. The amendment accords with the wishes of the Government of India, and is calculated to secure the Government from loss and to prevent reckless bidding. The proviso will meet cases of hardship.

19. *Clause 15* inserts a new section, following section 32 of the Eastern Bengal Excise Act, which is aimed at preventing the growth of vested interests in Excise licenses. The principle of the section is well recognized in practice, but it is advisable to insert the section in the substantive law.

20. *Clause 16* repeals the proviso to section 45 of the Bengal Excise Act, as being superseded by the proviso to the new section 44 (*1*) introduced by clause 14 of the Bill.

21. *Clause 17* raises from three to six months the maximum period of imprisonment for offences punishable under section 46 or section 52 of the Bengal Excise Act. A maximum of three months is inadequate for serious excise offences.

22. *Clause 18* adds a proviso to section 46 of the Bengal Excise Act, to make offences in respect to cocaine punishable with imprisonment up to one year or fine up to Rs. 2,000. The proviso is based on section 27 of Bombay Act XII of 1912, which raised the penalty for illicit dealings with cocaine to the scales now proposed for Bengal. It is necessary to check the growing illicit traffic in cocaine, and if the penalties in Bengal were milder than those in Bombay there would be a risk of the transfer of smuggling operations to the port of Calcutta.

23. *Clause 19.*—Offences falling under section 48 have recently become very common. It is almost impossible to prove an attempt unless the offender is caught red-handed or unless a series of overt acts can be proved, and it is equally difficult to prove knowledge. It is therefore necessary that the burden of proving his innocence should be thrown on the accused as is at present done in the case of section 47. A new section 48A has been inserted for this purpose. This provision will be applicable in those cases only in which the amount proved to have been found with the accused is in excess of half a gallon.

24. *Clause 20.*—The addition is intended to cover the case of possession of any excisable article in respect of which the "mixing" referred to in section 49 of the Act has been made.

25. *Clause 21.*—The words inserted here are intended to cover the case of import, export or transport of excisable articles for the reasons explained in the notes on clause 6 above.

26. *Clause 22* amends section 62 of the Bengal Excise Act (providing enhanced punishment after previous conviction) so as to bring it into line with section 64 of the Eastern Bengal Excise Act.

27. *Clause 23* amends the first proviso to section 64 (*2*) of the Bengal Excise Act by increasing to two months, as in section 69 (*3*) of the Eastern Bengal Excise Act, the period to elapse before ordering confiscation of articles seised.

28. *Clause 24.*—This extends the power of composition to all offences under the Act which may be of a petty nature. There may be, and actually are, many cases under penal sections of the Act (*e.g.*, sections 46, 48, 50, 52 and 53) not mentioned in section 65 (*a*) of the Bengal Excise Act as it now stands, which are of a petty nature and should not always be brought into Court. As the power of composition will only be exercised by the Collector or by superior officers of the Excise Department specially empowered by the Local Government, there is little risk of an abuse of the power or of cases being improperly kept out of Court.

29. *Clause 25.*—Section 66 of the Bengal Excise Act does not make specific provision for the examination of shop accounts and registers, and the addition which is now proposed follows section 37 of the Eastern Bengal Excise Act.

30. *Clauses 26 and 27.*—Sub-clause (*a*) of clause 26, following section 39 of the Eastern Bengal Excise Act, extends to Magistrates the power to issue warrants of arrest. Sub-clause (*a*) of clauses 26 and 27 expressly confine to Magistrates, who are empowered to try excise offences the power to issue warrants of arrest and search-warrants. Sub-clause (*b*) of these clauses is intended to cover the case of abettors. Sub-clause (*c*) of clause 27 provides for the issue of search-warrants for such documents as may be deemed necessary, as the production of the same may frequently be a matter of great importance for the proper disposal of a case.

31. *Clause 28* introduces into the Bengal Excise Act section 40 of the Eastern Bengal Excise Act, empowering Collectors and Magistrates to make arrests and searches themselves or to direct them to be made in their presence.

32. *Clause 29.*—It is proposed by sub-clause (*a*) to repeal the reference to the Collector in section 70 of the Bengal Excise Act, as being rendered unnecessary by the new section 69A introduced by clause 28 of the Bill, and by sub-clause (*b*) to provide for the case of abettors.

33. *Clause 30.*—The alteration here proposed is necessitated by the proposed repeal of the Eastern Bengal Excise Act. It will extend section 71 of the Bengal Excise Act to officers employed by the Port Commissioners of Chittagong, who are mentioned in section 50 of the Eastern Bengal Act.

34. *Clause 31* inserts a reference to clause (*a*) of section 65 in section 85 (*k*) of the Bengal Excise Act, to give the Local Government power to restrict the exercise of the power

given by the former clause to compound offences. This amendment will serve as a guard against any abuse of the power of compounding

35. *Clause 32* introduces into the Bengal Excise Act section 74 of the Eastern Bengal Excise Act. The section bars the application of section 261 of the Bengal Municipal Act, 1884 (relating to the licensing of offensive and dangerous trades), to distilleries and other places of storage which are governed by the Excise Act. It is inexpedient that Municipal Commissioners should have power to override the Excise Department in such matters.

36. *Clause 33* formally extends Bengal Act V of 1909, as proposed to be amended by the present Bill, to Eastern Bengal.

37. *Clause 34* formally repeals the Eastern Bengal Excise Act in this Presidency, with savings which are necessitated by the fact that section 25 of the Bengal General Clauses Act, 1899, does not meet a case of the present kind.

Repeal of section 31, Court-fees Act, 1870.

143. Section 31 of the Court-fees Act, 1870, is hereby repealed. VII of 1870

STATEMENT OF OBJECTS AND REASONS.

THE original Criminal Procedure Code of 1861 has been subsequently revised on three occasions, namely, in 1872, 1882 and 1898. Since the existing Code (Act V of 1898) was passed, a number of suggestions for the amendment of particular points have from time to time reached the Government of India, and the Police Commission in particular made various recommendations. The present Bill is the outcome of the examination of this accumulation of proposals, and is one of the series of revisions which experience of the actual working of the Code has necessitated from time to time.

The material changes included in the Bill are noticed briefly below :—

Clause 2.—At present an Additional District Magistrate can only be appointed for a period not exceeding six months, and it is doubtful whether such a magistrate can exercise the powers of a District Magistrate under any law except the Code. Experience has shown that the assistance of an Additional District Magistrate is not infrequently required for a longer time, and the limit of six months is therefore removed. At the same time the powers of such an officer are extended, and his position *vis-a-vis* the District Magistrate in respect of sections 192, 407 and 528 of the Code is defined.

Clause 3.—Power is taken to define the term for which a Presidency Magistrate may be appointed, and provision is made for the appointment of an Additional Chief Presidency Magistrate to meet the contingency of such an officer being needed, which has been actually experienced in Calcutta.

Clause 4.—This consequential amendment to clause 3 will permit of the definition of the position of an Additional Chief Presidency Magistrate *vis-a-vis* the Chief Presidency Magistrate.

Clause 5.—The existing explanation and illustration to section 35 of the Code have occasioned considerable misunderstanding. It is therefore proposed to omit them and to state definitely that section 35 must be read subject to section 71 of the Indian Penal Code. It is also declared that aggregate sentences passed under section 35 in case of conviction for several offences at one trial shall only be deemed to be a single sentence for the purpose of appeal, if they run consecutively.

Clause 6.—The amendment is intended to save the powers of officers on return from leave without the formality of regazetting them.

Clause 7.—It is considered desirable to place upon the public an obligation to give information regarding the more serious offences relating to coin and Government stamps, and the counterfeiting, etc., of currency and bank notes.

Clause 8.—It is proposed to make it clear that the obligation laid upon the officers mentioned in section 45 to communicate information regarding the occurrences specified relates to any such information as is acquired by them by personal observation as well as to information obtained by them from others. The second and fourth amendments are similar to those covered by clause 7 ; and furthermore, in view of the operations of professional swindlers, section 420 of the Indian Penal Code (cheating and dishonestly inducing delivery of property) is included among the offences regarding which information should be given. Thirdly, it is proposed to amend the law so as to impose upon village headmen and other officers referred to in the section the obligation of reporting the discovery of any corpse in or near a village in suspicious circumstances ; at present the section only covers the occurrence of any accidental, unnatural or suspicious death in or near a village. Fifthly, as a measure of decentralization, power is conferred upon sub-divisional magistrates to appoint for the purposes of this section village headmen in villages in which no such headmen are appointed under any other law. This power is at present exercised by District Magistrates.

Clause 9.—Following the analogy of English law, power is conferred upon private persons to arrest any person against whom a reasonable suspicion exists that he has committed a non-bailable and cognizable offence, thus extending the present section 59 of the Code, which authorises only the arrest of a person who commits a non-bailable and cognizable offence in the view of the person arresting him. Secondly, provision is made for sending the person arrested to the nearest police station in the custody of some person other than the person who effects the arrest. It is understood that in practice the agency of village watchmen, etc., is frequently utilised for this purpose.

Clause 10 will enable summonses to be served by registered post.

Clause 11 provides for the investigation of claims to attached property. At present the only remedy open to the third party whose property has been attached by mistake is a civil suit, which is a needlessly cumbrous procedure.

Clause 12 renders punishable any person who without any reasonable cause refuses or neglects to attend and witness a search when called upon to do so, and provides that the neglect or refusal of any such person to sign the list of articles seized shall not affect the legality of the

search. The intention is to prevent the frustration of searches by a refusal of witnesses to attend.

Clause 13.—Power is taken to bind down a person convicted of an offence *likely to cause* a breach of the peace. Secondly, it has been held that an appellate Court cannot pass an order under section 106 (*3*) unless the person convicted has been sentenced by a Court not inferior to that of a magistrate of the 1st class. This result does not appear to have been intended and it is proposed to remove the restriction.

Clause 14—It has been found that the matters covered by section 108 have been disseminated by other means than either orally or in writing, *e.g.*, by gramophone records, and the amendment meets this contingency. The second amendment is merely designed to make the intention of the legislature clearer as regards the proceedings which require sanction prior to their institution.

Clause 15 slightly extends the offences for which security for good behaviour can be taken by including the habitual commission of the crimes of kidnapping, abduction and the uttering of counterfeit coins, currency notes or stamps

Clause 16 enables a magistrate in emergent cases to take *immediate* steps to preserve the public peace or for the public safety by taking security pending the detailed inquiry. Secondly, when power was taken in 1898 to bind down a person who was so desperate and dangerous as to render his being at large without security hazardous to the community, it was omitted to provide in section 117 (*3*) that the fact of his being of such character might be proved by evidence of general repute or otherwise. This omission has now been rectified.

Clause 17—The amendment is designed to clear up the uncertainty which at present surrounds the circumstances in which a magistrate may refuse to accept as suitable a surety offered under Chapter VIII It also provides for inquiry into the suitability of the surety offered, either by the magistrate making the order, or by a magistrate subordinate to him

Clause 18 definitely provides for the exercise of powers under section 123 by an Additional Sessions Judge in proceedings transferred to him.

Clause 19—The following amendments are proposed in section 133, which deals with conditional orders for the removal of nuisances:—

All 1st class magistrates in place of those specially empowered have been authorised to take action when necessary.

Secondly, a magistrate is empowered to issue a conditional order under this section when in his opinion the way, river or channel, which is the subject of the unlawful obstruction or nuisance, may be lawfully used by the public. The amendment is designed to meet the difficulty which arises when the defence is set up that the way, river or channel is the private property of the objector, and that no public right exists.

Thirdly, the clause regarding noxious trades or occupations has been amplified in order to provide for cases in which it is the manner in which the trade or occupation is conducted which may be injurious to the health or physical comfort of the community.

Fourthly, provision is made for the destruction or disposal of dangerous animals.

Clause 20.—This is consequential to the second amendment mentioned in connection with section 133, and provides that the jury in deciding whether a conditional order passed under that section is reasonable or not shall consider any objection raised as to the non-existence of a public right.

Clause 21.—In section 145 of the Code, which deals with inquiries into disputes concerning land, etc, which are likely to cause a breach of the peace, the following changes have been made:—

Firstly, it has been provided that the magistrate *may* make an order in writing, in place of the existing expression that he *shall* make an order in writing, in order to make it clear that in such cases proceedings may either be taken under section 107 or under section 145.

Secondly, power has been given to restore to possession a party forcibly and wrongfully dispossessed.

Thirdly, the magistrate has been authorised on the death of a party to make his legal representative party to the proceedings, and, if necessary, to decide who such legal representative is.

Fourthly, the magistrate has been empowered to pass necessary orders for the custody or sale of property in dispute which is subject to speedy and natural decay, or if such an order would be for the benefit of the parties.

Clause 22.—Section 147, which deals with disputes concerning easements, etc., has been re-drafted in order to make its meaning clearer. The principal changes introduced are, firstly, that a Presidency Magistrate has been empowered to take action under the section; secondly, the definition of the subject matter in dispute has been modified so as to avoid the difficulties which have been created by decisions raising doubts as to the applicability of the section to rights not resembling easements or to rights acquired by contract; the specific

reference to rights of way has been omitted, as it has been questioned whether it might not, by implication, exclude negative easements from the scope of the section. Thirdly, the nature of the orders which a magistrate may pass and their continuance pending the order of a competent Civil Court to the contrary have been clearly defined.

Clause 23.—The amendment is consequential to the first change mentioned above in connection with clause 22.

Clause 24.—The amendment is intended to make it clear that the words 'police report' quoted in section 190 include reports in cognizable and non-cognizable cases. There is some conflict of judicial opinion on the point

Clause 25 makes it clear that the police have a discretion in arresting a person accused in a cognizable case (*vide* paragraph 155 of the Report of the Police Commission). The second amendment provides that if the Police do not investigate a complaint the complainant shall be informed to that effect.

Clause 26 enables an investigating police officer to requisition the assistance of another police officer not below the rank of a sub-inspector in examining witnesses.

Clause 27.—There has been some conflict of authority as regards the bearing of section 157 of the Indian Evidence Act, 1872, on section 162 of the Code, as regards the use which may be made of a statement made by any person to a police officer in the course of an investigation. The amendment provides that when such a statement or any part of it is used to impeach the credit of the witness it may also be used to corroborate his evidence. Reference may be made to the decision in Phanindra *versus* the King-Emperor, XXXVI Calcutta, 281.

Clause 28.—Clauses (*1*) and (*2*) of section 165, which deal with searches by police officers, have been re-drafted in order to obviate the difficulties arising from the decisions of the Calcutta High Court in Ishwar Chandra Ghosal *versus* the King-Emperor, XII Calcutta Weekly Notes, 1016, and Bajrangi Gope and others *versus* the King-Emperor, XV Calcutta Weekly Notes, 343. The second amendment applies the provisions of sections 102 and 103 as to searches made under warrant to searches made under section 165.

Clause 29 gives power in certain circumstances to an officer in charge of a police station to search or cause to be searched places within the limits of another police station (*vide* paragraph 111 of the Report of the Police Commission).

Clause 30 is consequential to the first amendment in clause 25.

Clause 31 gives power to a police officer making an investigation to release an accused person on bail if there is not sufficient evidence against him (*vide* paragraph 156 of the Report of the Police Commission).

Clause 32.—The first clause of section 173, dealing with reports of police officers, has been re-drafted, the principal change effected being to prescribe that the Police shall communicate the result of their investigation to the person by whom the first information was given.

Clause 33 empowers all magistrates of the first class to hold inquests.

Clause 34.—The amendment is of a verbal character eliminating the word 'stealing,' which is at present in use, and substituting the word 'theft'.

Clause 35.—This amendment should be read with that effected by clause 128.

Clause 36.—Section 195, which prescribes the sanction required in order to enable a Court to take cognizance in certain cases, has given rise to constant difficulty. It has accordingly been re-drafted, and the following are the principal changes proposed. Firstly, it is directed that the sanction shall not be granted unless the authority granting it is satisfied that there are reasonable grounds for believing that the offence in respect of which it is sought has been committed. Also that it shall specify the offence committed. Secondly, it is made clear that when an appeal lies against an order of sanction, the decision of the appellate authority is final. Thirdly, the period within which action must be taken in respect of sanction has been reduced from six months to two, as it is thought that if a prosecution is intended it should be instituted promptly. Fourthly, power has been conferred to institute fresh proceedings to obtain sanction if a previous sanction in respect of the same offence has been set aside on technical grounds. Fifthly, it is enacted that sanction may be given, notwithstanding the fact that an appeal has been preferred against the sentence, judgment or order of the Court in which the offence was committed. The final disposal of the case by the appellate authority may be long delayed, and it is undesirable to delay criminal proceedings for a like period. Sixthly it is directed that no sanction should be given or complaint made under section 211 of the Indian Penal Code until the criminal proceedings in respect of which the offence is alleged to have been committed have been finally disposed of and until the person whom it is sought to prosecute has had an opportunity of showing cause. Some of these points are at present covered by rulings, but it is thought desirable to insert them in the Code.

Clause 37.—At present no Court can take cognizance of any offence specified in section 196 unless upon complaint made with the authority of the Governor General in Council, the local Government, or some officer empowered by the Governor General in Council in this behalf. The preliminary investigation of these cases is hampered by this restriction, and it is proposed to substitute that no Court shall proceed to the trial of these offences unless the

prosecution has been sanctioned by the authority aforesaid. The safeguard of preliminary sanction will thus be maintained before the actual trial is held.

Clause 38.—Under section 197, when any judge or public servant is accused *as such judge or public servant of any offence* no Court shall take cognizance of such offence except with previous sanction. It is proposed to amplify the words italicised with the object of rendering the section clear, reverting rather to the wording of the Code of 1872.

Clause 39 provides for the making of a complaint with reference to the offences specified in section 198 when the person aggrieved is a minor or lunatic.

Clause 40 provides similarly for the making of a complaint in respect of the offences specified in section 199 when the husband of the woman is a minor or a lunatic.

Clause 41 allows discretion to a magistrate to take cognizance of a written complaint by a public servant acting, or purporting to act, in the execution of his official duties without examining the complainant on oath, thus avoiding possible inconvenience in some cases.

Clause 42.—Section 202, which deals with the postponement of issue of process, has been re-drafted and the following are the principal changes introduced :—

Third class magistrates have been given power to make preliminary inquiries personally.

Secondly, authority to make a preliminary inquiry has been given in any case in which the magistrate thinks fit for reasons to be recorded in writing. The only ground contemplated by the present section is if the magistrate is not satisfied as to the truth of the complaint. That is thought to be undesirably narrow.

Thirdly, the words 'inquiry or investigation' have been substituted for the expression 'previous local investigation,' which at present the magistrate is empowered to order and power is given to take evidence upon oath in the case of such a preliminary inquiry.

Fourthly, Presidency Magistrates are enabled to act under this section without special authorisation.

Clause 43.—The amendment is consequential to the changes effected by clause 42.

Clauses 44, 45 and 46.—The amendments are intended to explain more clearly what are the 'sufficient grounds' which would justify the commitment of an accused person for trial at the Sessions.

Clauses 47 and 65.—Under section 219 power is given to examine supplementary witnesses after the commitment to the Session and before the commencement of the Sessions trial, while under section 540 a Court has wide powers to summon any witness. In order that use should be made of the latter section more particularly for the summoning of witnesses desired by the Court rather than the parties, it is thought desirable to provide more clearly for the examination during the Sessions trial of witnesses whose evidence has not been recorded by the committing magistrate, and this is sought to be effected by amendments to sections 219 and 286, under which it will be possible for the prosecution to tender any witness at the Sessions, provided that his statement has been recorded by any magistrate, and that a copy of it had been given to the accused not less than 24 hours before the witness is produced at the trial.

Clause 48.—There is some doubt whether under section 221 it is permissible to prove a previous conviction if the enhanced punishment which it is sought to award is not beyond the competence of the Court, and the amendment directs that in such a case evidence of the previous conviction may be given.

Clause 49.—An illustration is added to section 234 with the object of making it clear that offences of the same kind may be tried together in accordance with this section, even if they were committed against different persons.

Clauses 50 and 51.—These clauses remove clause (2) of section 237 to section 238, in which it may be more appropriately placed, and re-enact it with the addition that a conviction for an abetment of an offence is also permissible although the abetment is not separately charged.

Clause 52.—The following amendments are proposed in section 239 which defines what persons may be charged jointly. It is provided that when two or more persons are accused of offences of the same kind committed by them jointly during the space of one year they may be tried for the same at one trial. Secondly, it is directed that when one person is accused of any offence which includes theft, extortion or criminal misappropriation and another of receiving, retaining or disposing of the stolen property they may be tried jointly. Thirdly, provision is made for the joint trial of one person accused of counterfeiting coin and another of fraudulently possessing or uttering it.

Clause 53.—This gives a magistrate a discretion, which he does not now possess, as to convicting an accused who pleads guilty in a summons case, and the Court is thus able to refuse to accept a plea of guilty which it believes to be untrue.

Clause 54 confers upon a magistrate in a summons case a discretion to refuse to issue further processes to secure the attendance of a witness to whom it has already issued a summons. It has been held that no such discretion at present exists.

Clause 55.—The amendment is practically one of drafting.

Clause 56.—In section 250, which enables compensation to be awarded in frivolous or vexatious accusations, the following changes are contemplated. For the purpose of recovery and imprisonment in default of payment, the compensation will be treated in all respects as a fine. Secondly, the procedure in awarding compensation has been more clearly laid down, by directing that a magistrate in his order of discharge or acquittal may call upon the complainant to show cause why he should not pay compensation, and that he shall then consider and record any cause shown and pass such orders as he sees fit. As the section is now worded the order to pay compensation is part of the order of discharge or acquittal, and the record and consideration of objections is to precede such order. The procedure now proposed is more logical.

Clause 57 requires an accused to state whether he wishes to cross-examine any witness for the prosecution immediately after a refusal or omission to plead or a claim to be tried. The object of the amendment is to require the accused to exercise his right at once at this stage and refrain from postponing cross-examination vexatiously.

Clause 58 is an amendment in drafting.

Clause 59 confers a discretion on the magistrate to discharge the accused if the complainant is absent and the offence is not cognizable.

Clause 60 makes offences under sections 223, 225-A and 509 of the Indian Penal Code triable in a summary manner.

Clause 61.—Benches of magistrates exercising 2nd or 3rd class powers have been authorised to try summarily offences under section 504 of the Indian Penal Code, or against laws other than the Penal Code if punishable only with fine or with imprisonment for a term not exceeding one month.

Clause 62.—At the instance of the local Governments concerned the towns of Allahabad and Rangoon have been included among those in which the trial of certain offences is by special jury.

Clause 63.—Section 282 mentions three contingencies in which a new juror may be added or the jury shall be discharged and a new jury chosen. These are not however exhaustive and the above procedure is permitted in addition if, for any other sufficient cause, the Judge thinks it to be necessary, following, in this respect, the principle of the English law.

Clause 64 effects a similar amendment to clause 63 as regards assessors.

Clause 65 requires any witness whose evidence was recorded by the committing magistrate, but who is not examined at the Sessions trial, to be tendered for cross-examination It is thought that the accused may reasonably claim that this should be done.

Clause 66 defines more clearly the use which may be made at the Sessions trial of the evidence of a witness duly taken in the presence of the accused before the committing magistrate.

Clause 67.—There have been conflicting rulings as to the circumstances in which the prosecution is entitled to reply, and the amendment seeks to define these more clearly.

Clause 68 is a drafting amendment.

Clause 69 prescribes that when a judge accepts the verdict of the jury in respect of some of the accused but not of others, he need only refer the case of the latter to the High Court.

Clause 70 assimilates the procedure by which assessors give their opinion to that adopted for ascertaining the verdict of a jury, namely, by question and answer, to be recorded.

Clause 71.—Section 310, which deals with the procedure in the case of a trial by a jury or with the aid of assessors when a previous conviction has to be proved, has been recast in order to avoid the inconvenience which may at present arise in cases tried by assessors (whose opinion is not binding on the judge) and in cases in which a judge decides to make a reference to the High Court under section 307. Under the amendment if a jury delivers a verdict of not guilty on the charge of the subsequent offence for which the accused is primarily being tried, or in any trial held with the aid of assessors, the Court is given a discretion to proceed or refrain from proceeding with the trial of the accused on the charge of the previous conviction.

Clause 72.—In place of the present maximum of 400 special jurors fixed by section 312 it is left to the High Court to prescribe the number, thus ensuring greater elasticity.

Clause 73.—Similarly, as regards the number of jurors to be summoned in Presidency towns, the rigid minimum limits fixed in section 315 have been omitted, and the town of Rangoon has been added to the Presidency towns to which that section now applies.

Clause 74.—The amendment is one of drafting.

Clause 75.—Section 337 restricts the power to tender a pardon to an accomplice to offence triable exclusively by the Court of Session or High Court. This restriction has been remove by the omission of the word 'exclusively,' but at the same time it is enacted that all cases in which it is proposed to utilise the provisions of this section should be tried either by the Court of Session or by a District Magistrate empowered under section 30. (*Cf.* paragraph 180 of the Report of the Police Commission.) Under sub-section (*3*) an approver *if not on bail* shall be detained in custody until the termination of the trial. In order to render the intention of the section clearer, the words 'unless he is already on bail' are substituted for the words in italics.

Clause 76.—There has been considerable diversity of rulings as to what (if any) authority should withdraw a pardon, tendered on breach of the conditions attached to it, with a view to the prosecution of the approver, and the amendment directs that this authority should be either the District Magistrate or the magistrate by whom such pardon is tendered. The Court of Session or High Court is at the same time authorised to detain an approver in custody for a period not exceeding 14 days pending an application for the grant of sanction to prosecute, and it is provided specifically that when tried for the offence in respect of which the pardon was tendered, the approver shall be entitled to plead that he has complied with the conditions upon which the tender was made.

Clause 77.—The expression 'person accused' in section 340 may be read as referring only to persons accused of any offence; it is proposed to make it clear that any person against whom proceedings under the Code are instituted is entitled to be defended by a pleader. It is also laid down that persons against whom proceedings under Chapters X, XI, XII, XXXVI or under section 552 of the Code are pending do not labour under the ordinary disability of an accused person to be sworn, and that they may be examined as witnesses in such proceedings.

Clause 78.—Offences under sections 343, 346, 357, 417, 451 (first part), 494 and 509 of the Indian Penal Code are added to the list of offences compoundable with the permission of the Court; also any offence which is not punishable with death or transportation or imprisonment for a period exceeding six months, provided that cognizance of such an offence has been taken upon complaint. It is thought that in these minor offences composition may safely be allowed subject to the restrictions referred to above.

Secondly the permission of the Court is required to the compounding of a case on behalf of a minor, idiot or lunatic by any person lawfully entitled to the care and custody of his person or property.

Clause 79 is designed to bring section 347 into line with section 208.

Clause 80 provides that when any person is committed to the Court of Session or High Court under section 348, another person accused jointly whom the magistrate believes to be guilty, shall be similarly committed. Identical treatment will thus be accorded to all the accused.

Clause 81 is of similar effect to clause 80 in the case of action being taken under section 349 (*1*).

Clause 82.—There has been some difference of opinion as to the position when cases are transferred from one magistrate to another otherwise than from a predecessor to a successor in office. The amendment provides that the magistrate from whom the case is transferred shall be deemed to cease to have jurisdiction within the meaning of this section.

Clause 83.—At present it is believed that section 360, which requires the Court to read over the evidence of each witness to him in the presence of the accused or his pleader, is not always observed in practice and occasions unnecessary inconvenience. The amendment provides accordingly for a witness reading over his deposition himself, and further that the deposition need only be read in the presence of the accused if the accused so desires.

Clause 84 is intended to remove the uncertainty which at present exists regarding the duties of a Presidency Magistrate in recording evidence and framing a charge in petty cases. It is further provided that when sentences in excess of one are passed, which are ordered to run concurrently, it is the heaviest sentence which determines the applicability of section 362

Clause 85 makes it obligatory on Chartered High Courts and Chief Courts to prescribe the manner in which evidence should be taken down in cases coming before them.

Clause 86 provides for the dictating of judgment with the safeguard that each page of a judgment transcribed from dictation should be signed by the presiding officer.

Clauses 87 and 88 make immoveable property as well as moveable property liable to sale, as it is not thought reasonable that immoveable property should be allowed to escape; and at the same time power is given to the local Government to make rules regarding the execution of warrants and the determination of claims.

Clause 89 allows time to be given for the payment of the fine without the issue of a warrant.

Clause 90 enables a sentence of fine to be awarded in lieu of a sentence of whipping which cannot be carried out.

Clause 91.—In accordance with the amendment a Court will be empowered to pass a sentence to run concurrently with any other term of imprisonment, etc., which the person convicted is already undergoing, and it has been made clear that a person who is in jail for failure to give security is undergoing a sentence of imprisonment within the meaning of the Code.

Clause 92 empowers a local Government to call for the record of a trial along with the presiding judge's opinion when considering an application for the suspension or remission of a sentence; also to remit or suspend the sentence of a person undergoing imprisonment for failure to give security.

Clause 93.—Doubts have been expressed as to the consistency of section 402 with section 55 of the Indian Penal Code, and these have now been resolved.

Clause 94.—An appeal has been provided to the District Magistrate in the case of any person bound down to keep the peace by any other magistrate. It has also been made clear that the section does not apply to cases laid before the Sessions Judge under section 123.

Clause 95.—An appeal is provided for in section 407 against any sentence or order passed under section 380. A similar amendment in section 408 is made by the succeeding clause.

Clause 96 provides that in a trial in which more than one person are accused, and in which by reason of the sentences passed an appeal lies in the case of some persons to the Sessions and of others to the High Court, the appeal of all shall lie to the latter tribunal.

Clause 97 directs that when in one trial before a Sessions Judge. District Magistrate or magistrate of the 1st class some accused have been awarded sentences which are appealable and other sentences which are not, all shall have a right of appeal.

Clause 98 provides that when in the case of a trial by jury one person is sentenced to death and another to a lower punishment, the second accused may appeal on a matter of fact as well as on a matter of law. This is intended to remove the anomaly under the existing law that a High Court acting under section 374 could consider the facts of the case as regards the former accused, but on an appeal of the second accused could only intervene on a point of law.

Clause 99.—At present when the Judges composing the Court of Appeal in the High Court are equally divided in opinion, the case is laid before a third Judge. In order to prevent the possibility of this third Judge interfering with the unanimous decision of the previous two on any point of the case, it is provided that the whole case should be reheard before the three Judges and judgment given in accordance with the opinion of the majority.

Clause 100.—The following amendments are proposed in section 435 :—

(*i*) All sub-divisional magistrates, and not only those especially empowered, are authorised to call for the records of inferior courts.

(*ii*) Power is given to suspend a sentence or to release an accused on bail pending the examination of the record, thus avoiding the result, should delay occur, that the sentence may have been served before orders are passed.

(*iii*) Orders under section 476, and complaints made or sanctions granted under section 195, are exempted from the liability to revision.

Finally, it has been made clear that for the purposes of this section a magistrate exercising appellate jurisdiction is inferior to the Court of Session. The point has been held to be open to doubt.

Clause 101.—Section 436 has been amended in order to make it clear that on examining the record, if a Court considers that the accused is triable exclusively by the Court of Session and that the accused has been improperly discharged, it has power either to direct a further inquiry or to order the accused to be committed to the Sessions.

Clause 102.—There have been different rulings as to whether the expression 'any accused person' in section 437 means 'any person accused of an offence,' and it is now made clear that it does.

Clause 103 empowers an Additional Sessions Judge to exercise the powers of the Sessions Judge under Chapter XXXII in the absence of the latter.

Clause 104.—The first amendment in section 464 is consequential on the amendment noticed below in section 466. The second amendment requires the magistrate, if of opinion that the accused is of unsound mind and incapable of making his defence, to record a finding to that effect.

Clause 105 provides for the discharge of the jury in the event of the Court of Session or the High Court being satisfied that the accused is of unsound mind and incapable of making his defence.

Clause 106 amends section 466 so as to allow bail to be granted, in any case in which the accused is a lunatic, at the discretion of the Court and permits the Court to order the accused to be kept in safe custody subject to such rules as the local Government may frame if detention is in a lunatic asylum. The object in view is to delegate the power of the local Government and to do away with the existing distinction in procedure between bailable and non-bailable cases.

Clause 107 is consequential to the amendment of section 466.

Clause 108 enables a Court, on the application of any relative or friend of the accused, to order the latter to be delivered to him on the terms and conditions mentioned in section 475 (*1*), if the accused is acquitted on the ground of unsoundness of mind.

Clause 109 delegates from the local Government to the Court the power to pass orders regarding lunatics confined under section 466 or section 471 if the Inspector General of Prisons or visitors of an asylum have certified that such person can be discharged without risk.

Clause 110 delegates to the Court the powers of a local Government to order the delivery of a lunatic to a relative or friend subject to the furnishing of a security, and simplifies the procedure under which a person accused of an offence, whose trial has been postponed by reason of his unsoundness of mind, is again produced before the Court on the certificate of the inspecting officer as to his recovery.

Clause 111 enables cases under section 476 arising in presidency towns to be sent to salaried Presidency Magistrates for inquiry or trial. The second amendment is purely consequential.

Clause 112.—Section 488, relating to the passing of orders for the maintenance of neglected wives and children, has been amended in the following particulars. The maximum amount payable for maintenance has been raised from rupees fifty to rupees one hundred per mensem. Secondly, in default of payment of maintenance a Court is authorised to impose a sentence of six months' imprisonment in lieu of the existing limit of one month's imprisonment for each month's allowance unpaid in whole or part. Thirdly, a limit of one year from the date of default has been imposed within which a warrant for the realization of maintenance due must be applied for. Fourthly, the word 'wilfully,' which now qualifies the neglect to comply with an order, has been omitted, owing to the difficulties which have arisen in its interpretation. Fifthly, the words 'commits adultery' have been substituted for the words 'is living in adultery,' and a woman who has been guilty of adultery before the order is obtained is precluded from obtaining an order for maintenance. An order for maintenance may also be cancelled if it is proved that the woman commits adultery after it has been passed. Finally, for the word 'accused,' which is inappropriate in this section, the words 'person against whom proceedings are taken' have been substituted.

Clause 113.—This is consequential to the first amendment in section 488.

Clause 114.—This includes the Indian Extradition Act, 1903, among the enactments to which nothing in section 491, which gives power to issue directions of the nature of a *habeas corpus*, applies, thus fulfilling the intention of the legislature when the Extradition Act was passed.

Clause 115 enables the District Magistrate or, subject to his control, a Sub-Divisional Magistrate to appoint any person other than a police officer below a certain rank to act as public prosecutor in the absence of that officer in any case, instead of as at present in the Sessions Court only, as the necessity of such action may equally well arise in other instances. Secondly, in defining the status of the person who may be thus selected the words 'not being an officer of police below the rank of District Superintendent as defined in the Police Act, 1861,' have been substituted for the words 'not being an officer of police below the rank of Assistant District Superintendent', thus covering any person to whom the local Government thinks fit to give the powers of a District Superintendent.

Clause 116 makes it clear that a public prosecutor may withdraw one only of several charges against an accused person.

Clause 117 provides for the grant of bail in any case at the discretion of the Court, for reasons to be recorded, if the accused is a minor, female or sick or infirm person.

Clause 118 enables a Chief Presidency Magistrate to delegate to a subordinate Presidency Magistrate his powers and duties under any commission issued in his name.

Clause 119 is consequential to the amendment effected by clause 118.

Clause 120.—There has been a conflict of opinion whether a judgment convicting the principal in a bond taken under the Code and ordering the forfeiture of the bond is sufficient *prima facie* proof in proceedings under this section against the sureties. The amendment permits the use of such a judgment as evidence in such proceedings, and directs that the Court shall presume that such offence was committed unless the contrary is proved.

Clause 121 provides for the taking of fresh security in the even of the death of a surety to the original bond or the forfeiture of the bond under section 514.

Clause 122 inserts a new section enabling a Court to make such orders as it thinks fit for the proper custody or disposal of property produced before it during the pendency of any inquiry or trial.

Clause 123 effects the following amendments in section 517. It elucidates the order for the disposal of a property produced before it which a Court may pass by explaining that this means disposal by destruction, confiscation, restoration to the person claiming to be entitled to the possession thereof or otherwise. Secondly, it is made clear that when an order is passed by a Court, which is appealable, the property shall not ordinarily be disposed of until the time for presenting an appeal is passed, or until such appeal has been disposed of, except

when the property is subject to speedy and natural decay. Thirdly, the Court is enabled, if it sees fit, to restore the property to the possession of any person claiming to be entitled to it who is willing to execute a bond for its return if need be.

Clause 124.—In section 522, which permits a Court to order a person to be restored to the possession of immoveable property from which he has been ousted by force, it is provided that such an order can be made at any time within six months of the date of conviction. Secondly, the section has been extended to cover cases in which a man is ousted from possession by a show of criminal force or criminal intimidation. Thirdly, power is given to an Appellate Court or to a High Court in revision to pass such an order.

Clause 125.—In order to prevent the accumulation of trivial and other unidentifiable articles, power is given to a Court to direct the disposal of them.

Clause 126.—Section 526 of the Code has been amended in order to make it clear that the powers of a High Court to transfer criminal cases extend to the transfer of miscellaneous proceedings under the Code; secondly, in order to render clearer the intention of the legislature with regard to the postponement of cases in order that application may be made for their transfer to another tribunal, it is definitely laid down that the Court is required to adjourn for this purpose only before the party proceeded against in the case is called on to enter upon his defence or before the appeal is heard. A further restriction has been added in the case of a Sessions trial prescribing that when the accused has been committed not less than ten days before the trial, the judge shall not be required to adjourn unless the accused has given at least seven days' notice in writing of his intention to make such an application. The calendars of Sessions Courts, involving the convenience of jurors, assessors and parties, are peculiarly liable to be upset by the postponement of cases.

Clause 127.—The amendment is similar to that first mentioned in connection with section 526.

Clause 128 makes it clear that a Chief Presidency or District Magistrate may, by general or special orders, empower any subordinate magistrate to transfer for inquiry or trial any case of which he or any other magistrate subordinate to such Chief Presidency or District Magistrate has taken cognizance to any other such magistrate, and to withdraw or recall any cases so made over and to try and inquire into them himself. It is, however, provided that outside the Presidency towns powers under this section may be delegated only to magistrates of the first class. The second amendment refers, in sub-section 4, to Madras Regulation XI of 1816, which had apparently been omitted by oversight.

Clause 129 directs that the want of, or any irregularity in, any sanction required by sections 196 and 196-A of the Code does not render a sentence or order liable to modification on appeal or revision.

Clause 130.—A new section is inserted which is intended to discourage the making of false and scandalous statements in petitions filed before the Courts, if such petitions seek to impugn the action of subordinate authorities. Further, a new section is inserted definitely prescribing that any judge or magistrate may at any stage of any inquiry or trial visit and inspect any place connected with the occurrence, subject to his recording a note of his inspection, of which a copy shall on his application be supplied to the accused.

Clause 131.—The new section proposed is designed to meet a practical difficulty which is occasionally experienced in trials involving a large number of accused persons, when one or more of them become incapable of remaining at the bar.

Clause 132 dispenses with the previous sanction of the Governor General in Council to any rules made by a local Government requiring the payment of the reasonable expenses of complainants and witnesses.

Clause 133 makes it clear that compensation under section 545 may be paid to any person by whom it would be recoverable in a civil court. Further, the payment of compensation to an innocent purchaser of stolen property is provided for, when the property is restored to the possession of the person entitled thereto.

Clause 134 practically embodies the provisions of section 31 of the Court Fees Act in the Code in order that greater prominence may be given to them.

Clause 135 provides for the powers of judges and magistrates being exercised by their successors in office, and for the determination by a Chief Presidency or District Magistrate of the person to be deemed the successor in office of a subordinate magistrate in cases of doubt.

Clause 136 refers to the powers of Courts to make such orders as may be necessary to give effect to any order under the Code or to prevent abuse of the process of the Court.

Clause 137 extends the list of offences on conviction for which a person may be released upon probation instead of being sentenced to punishment. Secondly, it is made clear that section 562 does not merely apply to the cases of youthful offenders. Thirdly, the word 'trivial' has been omitted before the words 'nature of the offence' to which the Court may have regard before exercising its discretion. Fourthly, the period for which an offender may be released under this section has been extended from one to three years. Fifthly, in the case of a minor, provision has been made that a bond for good behaviour shall be executed by a surety only. Sixthly, power has been conferred upon an Appellate Court or upon a High Court in the exercise of its revisional jurisdiction to make an order under section 562. And

finally, a High Court has been empowered, either on appeal or revision, to inflict sentence of imprisonment in lieu of an order made under this section. This power is taken in consequence of the extension which will be given to the section by the above amendments

Clause 138 extends the list of offences after a conviction for which a person may be required under section 565 to notify his residence and subsequent changes of residence. Secondly, on the analogy of section 75 of the Indian Penal Code, as amended in 1910, provision has been made for previous convictions before tribunals of Native States which exercise their jurisdiction under the general or special authority of the Government of India or of the local Government Thirdly, all first class magistrates, in place of those specially empowered, have been authorised to pass orders under section 565. Fourthly, the punishment for a breach of the rules made under the section has been enhanced. Fifthly, the rule-making power has been extended to cover the provisions of the section relating to the notification of residence, or change of residence, or absence from residence of released convicts Finally, Courts of Appeal or Revision have been empowered to pass orders under this section.

Clause 139.—Apart from minor matters of drafting the following noticeable amendments are effected in Schedule II. Offences under sections 341 and 374 of the Indian Penal Code are made non-cognizable. Secondly, offences under sections 213 and 215 of the Indian Penal Code are made cognizable. Thirdly, offences under sections 403 and 451 of the Indian Penal Code are made compoundable; in the latter instance only if the offence to be committed is not theft. Fourthly, cases under section 294 of the Indian Penal Code are made triable by any magistrate. Fifthly, cases under sections 317, 368 and 395 of the Indian Penal Code, which are at present triable by a Court of Session only, are made triable by a Court of Session, Presidency Magistrate or magistrate of the first clas.

Clauses 140 and 141.—The amendments in Schedules III and IV are consequential to those already explained.

Clause 142 makes certain amendments in the forms referred to in Schedule V, of which the chief is in order to clear up an apparent inconsistency between the wording of section 88 and that of Form VI. The other amendments proposed are consequential to others which have been already explained.

Clause 143 repeals section 31 of the Court Fees Act in consequence of the amendments proposed in clause 134.

No. 162 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 246 of 1914), are republished:—

Position.—At flagstaff on Ras Marbut (Steamer point).
Lat. 12° 47¼′ N., long. 44° 58¼′ E.

I.—Cautionary Signal.

The square flag W of the International Code, hoisted as a cautionary signal, indicates the existence of disturbed weather off some part of the west coast of India or in the neighbourhood of the port, or the advance of a cyclonic storm across the Indian Peninsula, from the Bay of Bengal, which may hence shortly cross the Western Ghats of India and give squally or stormy weather in the Arabian sea. The disturbed conditions may, in any of these cases, pass away without giving stormy cyclonic weather to the ports on the west coast of India or to the adjacent parts of the Arabian sea, in which case the cautionary signal will be taken down, as soon as it is certain that stormy weather will not shortly follow.

If, however, the disturbed weather be the first indication of the probable formation or approach of a cyclonic storm, this cautionary signal will be followed by one of the ordinary storm signals, indicating the probable position, character and track of the approaching storms. This signal would be hoisted if the disturbing conditions were thought likely to affect either Aden or the tracks of vessels leaving Aden.

II.—Warning Signal.

The warning signal, *viz.*, a ball by day and a *red* light by night, will be hoisted (*a*) when a storm has formed and is threatening to advance towards Aden, though still at a considerable distance; or (*b*) when a storm has formed and is not likely to affect Aden, but to cross the tracks of vessels leaving Aden.

III.—Danger Signals.

(1) By day, a cone apex downwards, or by night, a *red* light vertically above a *white* light indicates that a cyclonic storm (probably of slight to moderate intensity) may affect the port, and that its centre will probably pass considerably to the southward of the port in a westerly direction.

(2) By day, a cone apex upwards, and by night, a *red* light vertically below a *white* light indicates that a cyclonic storm (probably of slight to moderate intensity) may affect the port, and that its centre will probably cross considerably to the north-east of Aden.

(3) By day, a drum, and by night, two *red* lights in a vertical line indicates that a cyclonic storm (probably of slight to moderate intensity) will probably cross the coast over or near the port.

IV.—Great Danger Signals.

In order to indicate that a cyclonic storm in the sea area near the port is of great intensity, a ball (by day) or a *red* light (by night) is added to the corresponding danger signal.

(1) By day, a cone apex downwards, and ball below, and by night, two *red* lights with a *white* light below arranged in a vertical line indicate that a cyclonic storm of great intensity may affect the port, and that its centre will probably pass considerably to the southward of the port in a westerly direction.

(2) By day, a cone apex upwards and ball below, and by night, two *red* lights with a *white* light above in a vertical line indicate that a cyclonic storm of great intensity may affect the port and that its centre will probably cross the coast considerably to the north-east of the port.

(3) By day, a drum with a ball below, or by night, three *red* lights in a vertical line indicate that a cyclonic storm of great intensity will probably cross the coast over or near to the port.
